ITEM 1

MARKET TYPES

1.1 Pre-open session (Regular)

The pre-open session is conducted using call auction mechanism for duration of 15 minutes i.e., from 9:00 am to 9:15 am. The pre-open schedule is as follows:

Session	Time	Remark
Order Entry Period	9:00 am - 9:08 am (*)	<ul style="list-style-type: none"> Order entry, Modification and Cancellation (*) System driven Random closure between 7th and 8th minute
Order Matching & trade Confirmation Period	9:08 am (*) – 9:12 am	<ul style="list-style-type: none"> (*) Order matching period will start immediately after completion of order entry period. Opening price determination. Order matching and trade confirmation.
Buffer Period	9:12 am - 9:15 am	<ul style="list-style-type: none"> Transition from pre-open to continuous trading session

A. Trading Hours

The pre-open session is for duration of 15 minutes i.e., from 9:00 am to 9:15 am. The pre-open session is comprised of Order collection period and order matching period. After completion of order matching there shall be silent period to facilitate the transition from pre-open session to the normal market.

B. Eligible securities

National Stock Exchange of India Limited

[Go to Index](#)

The pre-open session with call auction mechanism is applicable to all equity market securities including SME securities, partly paid-up securities, and InvITs/REITs. List of securities eligible in pre-open is identified in security.txt file available on extranet under common/NTNEAT directory.

C. Market parameters

Particulars	Equity Market	SME Securities (Series SM/ST/SZ)
Market	"N"	"N"
Lot Size	Same as Normal Market	Applicable Lot size
Tick Size	Same as Normal Market	Same as Normal Market
Price Band	Same as Normal Market	Same as Normal Market
Book type	PO	PO

D. Trading session

Pre-open session comprises of two sessions viz.

- Order collection period.
- Order matching period.

Order Collection Period

- During this period orders can be entered, modified, and cancelled. Order collection period ends by system driven random closure between 7 and 8 minutes.
- Both Limit and market order are allowed.
- The information like Indicative equilibrium / opening price of scrip, total buy and sell quantity of the scrip, Indicative NIFTY 50 Index value & % change of indicative equilibrium price to previous close price shall be computed based on the orders in order book and are disseminated during pre-open session.

Order Matching Period

- Order matching period starts immediately after completion of order collection period.
- Order will be matched at a single (equilibrium) price which will be open price.
- The order matching happens in following sequence
 - Eligible limit orders are matched with eligible limit orders
 - Residual eligible limit orders are matched with market orders

National Stock Exchange of India Limited

[Go to Index](#)

- Market orders match with market orders
- During order matching period order modification, order cancellation, trade modification and trade cancellation are not allowed.
- The trade details are disseminated to respective members before the start of normal market.

E. Determination of Equilibrium / Opening price

- The opening price is determined based on the principle of demand supply mechanism.
- The equilibrium price is the price at which the maximum volume is executable.
- In case more than one price meets the said criteria, the equilibrium price is the price at which there is minimum order imbalance quantity (unmatched order quantity). The absolute value of the minimum order imbalance quantity is taken into consideration.
- In case more than one price has same minimum order imbalance quantity, the equilibrium price is the price closest to the previous day's closing price. In case the previous day's closing price is the mid-value of pair of prices which are closest to it, then the previous day's closing price itself is taken as the equilibrium price. In case of corporate action, previous day's closing price is adjustable closing price or the base price.
- Both limit and market orders reckon for computation of equilibrium price.
- The equilibrium price determined in pre-open session is considered as open price for the day.
- In case of only market orders exist both in the buy and sell side, then order is matched at previous day's close price or adjusted close price / base price. Previous day's close or adjusted close price / base price is the opening price.
- In case of no price is discovered in pre-open session, the price of first trade in the normal market is the open price.

F. Unmatched order

- All outstanding orders are moved to the normal market retaining the original time stamp. Limit orders will be at limit price and market orders will be at the discovered equilibrium price.
- In a situation where no equilibrium price is discovered in the pre-open session, all market orders are moved to normal market at previous day's close price or adjusted close price / base price following price time priority.

G. Index circuit filter

- In the event NIFTY 50 breaches its prescribed threshold limit upon calculation of the opening value of NIFTY 50 at the closure of pre-open session, a trading halt will be triggered as per SEBI Circular Ref. No. CIR/MRD/DP/25/2013 dated September 03, 2013, on index-based market-wide circuit breaker system.
- The trading halt shall be applicable at the start of the continuous trading session. The index breach will not impact the execution and confirmation of trades during the pre-open matching session.

H. Risk Management

National Stock Exchange of India Limited

[Go to Index](#)

All orders received in pre-open session shall be validated at the applicable margins for sufficiency of available capital prior to acceptance of the orders. If the available capital of the member is insufficient to cover the margin requirement of the order placed, the same shall not be accepted for the pre-open session.

1.2 Special Pre-open session (SPOS):

SEBI wide circular no CIR/MRD/DP/01/2012, CIR/MRD/DP/02/2012 dated January 20, 2012, CIR/MRD/DP/6/2013 dated February 14, 2013, has provided guidelines for call auction mechanism to be applicable for IPO, and Re-listed securities on the first day of trading/ re-commencement of trading.

Further, as per the aforesaid SEBI circular new SME IPO securities shall form part of Special Pre-Open Session (Special Pre-open session (SPOS) conducted using call auction mechanism for price discovery before being made available for trading in normal market w.e.f March 26, 2018.

National Stock Exchange of India Limited

[Go to Index](#)

Pursuant to Securities and Exchange Board of India (SEBI), Circular No. SEBI/HO/MRD/MRD-PoD-3/P/CIR/2024/86 dated June 20, 2024, special pre open session mechanism for price discovery for listed Investment Companies (ICs) and listed Investment Holding Companies (IHCs) w.e.f October 28, 2024.

In accordance to the above SEBI circulars, the exchange has introduced Special pre-open session.. The details are as follows:

A. Eligible securities

The Special pre-open session is applicable for the below :

1. Initial Public Offerings (IPO) of equity shares and scrips as defined under para 1(C) of SEBI circular no. SEBI/Cir/ISD/1/2010 dated September 2, 2010 (hereinafter referred to as Re-listed Securities) on the first day of trading / recommencement of trading.
2. The same would also be applicable for all stocks in the following cases with effect from October 01, 2015:
 - i. This session shall also be applicable to stocks having derivatives contracts on the Ex-date of trading after undergoing scheme of arrangement/corporate restructuring with effect from October 01, 2015, on the basis of clarification received from SEBI.
 - ii. Corporate Restructuring: Merger, demerger. Amalgamation, capital reduction/consolidation, scheme of arrangement, in terms of the Companies Act and/or as sanctioned by the Courts, in cases of rehabilitation packages approved by the Board of Industrial and Financial Reconstruction under Sick Industrial Companies Act and in cases of Corporate Debt Restructuring (CDR) packages by the CDR Cell of RBI.
 - iii. Securities that are being admitted to trading from another exchange by way of direct listing/MOU/securities admitted for trading under permitted category,
 - iv. Where suspension of trading is being revoked after more than one year.
3. Investment Companies (ICs) and Investment Holding Companies (IHCs) w.e.f October 28, 2024.

B. Trading Hours

Special Pre-open session (SPOS) is of duration of 60 minutes from 09:00 am to 10:00 am. The Special Pre-open session (SPOS) constitutes of order collection period and order matching period. After completion of order matching there shall be silent period to facilitate the transition from pre-open 2 to the normal market.

Pre-open2 session	Time	Remark
Order Entry	9:00 am - 9:45 am (*)	<ul style="list-style-type: none"> Order entry, Modification and Cancellation

National Stock Exchange of India Limited

[Go to Index](#)

Period		<ul style="list-style-type: none"> (*) System driven Random closure anytime between 35th and 45th minute (during last ten minutes of order entry)
Order Matching & trade Confirmation Period	9:45 am (*) – 9:55 am	<ul style="list-style-type: none"> (*) Order matching period will start immediately after completion of order collection period. Opening price determination. Order matching and trade confirmation.
Buffer Period	9:55 am – 10:00 am	<ul style="list-style-type: none"> Transition from pre-open to Normal market

C. Call Auction in Pre-open2 session shall comprise of two sessions viz.

- Order Collection period
- Order matching period

Order Collection Period

- During this period orders can be entered, modified, and cancelled. Order collection period ends by system driven random closure between 44th and 45th minutes.
- Only limit order will be allowed.

Order Matching Period

- Order matching period will start immediately after completion of order collection period.
- Order will be matched at a single (equilibrium) price which will be open price.
- Eligible buy limit orders will be matched with eligible sell limit orders
- During order matching period order modification, order cancellation, trade modification and trade cancellation will not be allowed. The trade details will be disseminated to respective members immediately after matching of trades.

D. Trading in normal market session in other securities and IPO and Re-listed securities in pre-open session shall be available simultaneously.

E. Trading in securities will move in the Normal market only after the prescribed time i.e., 10:00 am subject to certain conditions.

National Stock Exchange of India Limited

[Go to Index](#)

- F.** Block Trading session for new security (security trading in special pre-open session i.e., IPO and Relisted security) shall be eligible only in second session of block deal window on listing day, subject to successful price discovery

G. Market parameters

Particulars	Equity Market	SME Platform
Series	EQ/BE/BZ *	SM/ST/SZ
Lot size	1 Equity share	Applicable Lot Size
Tick size	Applicable tick size as mentioned in chapter 3.3	Applicable tick size as mentioned in chapter 3.3
Price band	No Band	No Band
Book Type	CB	CB
Market	"G"	"G"

*And equivalent series for InvITs, REITs and warrantsDetermination of Equilibrium / Opening price:

H. Determination of Equilibrium / Opening price:

- The opening price shall be determined based on the principle of demand and supply mechanism.
- The equilibrium price will be the price at which the maximum volume is executable.
- In case more than one price meets the said criteria, the equilibrium price will be the price at which there is minimum order imbalance quantity (unmatched order quantity). The absolute value of the minimum order imbalance quantity will be taken into consideration.
- In case more than one price has same minimum order imbalance quantity, the equilibrium price will be the price closest to the base price. In case the base price is the mid-value of pair of prices which are closest to it, then the base price itself will be taken as the equilibrium price.
- The equilibrium price determined in call auction of Special Pre-open session (SPOS) is considered as open price for the day.
- For Investment Companies (ICs) and Investment Holding Companies (IHCs) securities, there shall be an additional validation while determining the equilibrium / opening price as below:
 - The SPOS shall be treated as successful, if price discovery is based on orders received from at least 5 Permanent Account Number (PAN) based unique buyers and sellers i.e. at least 5 unique PAN on each side.
 - In case the security is listed on multiple stock exchanges and the SPOS is successful on any one stock exchange then the price discovered at that stock exchange will form the base for normal market trading at other stock exchange.

National Stock Exchange of India Limited

[Go to Index](#)

- c) If the SPOS for the security is not successful on day 1, then such session shall be conducted on the subsequent trading days, until price is discovered at any of the Exchanges.
- d) In case the minimum criteria for 5 PAN based unique buyers and sellers is not met i.e. unsuccessful price discovery, all the outstanding orders shall be cancelled by the Exchange at the end of session (including matchable orders, if available). This shall be irrespective of status of price discovery in that security at the other Exchanges.

I. Common Equilibrium Price (CEP) with respect to trading on first day of IPO or re-listing (including re-listing on account of scheme of arrangement but excluding scrips for which derivative contracts are available) the following shall be applicable:

- Call Auction session would continue to be conducted separately on individual exchanges and orders would be matched by respective exchanges after computation of equilibrium price.
- If there is difference in the equilibrium price between Exchanges in percentage terms (i.e. absolute difference/minimum of equilibrium prices, expressed as %) is more than the applicable price band for the scrip, a Common Equilibrium Price (CEP) would be computed by exchanges. The CEP shall be volume weighted average of equilibrium prices on individual exchanges as determined by the Call Auction.
- The Exchanges shall set the aforesaid CEP in their trading systems and apply uniform price bands based on the CEP, as applicable.
- Only unexecuted pending orders from Call Auction session within the aforesaid price band shall be carried forward to the normal market segment.

Illustration of the aforesaid is provided below:

Consider the following details for a scrip after completion of Call Auction session on two Exchanges with applicable price band as 5% for the day:

Exchange 1				Exchange 2			
Equilibrium Price	Qty	Lowest bid/ask price	Highest bid/ask price	Equilibrium Price	Qty	Lowest bid/ask price	Highest bid/ask price
120	300	100	140	100	500	80	130

As percentage difference in the two equilibrium prices (i.e. 100 and 120) is more than the applicable price band (i.e. 20% against 5%), CEP would be calculated viz. $(120 \times 300 + 100 \times 500) / 800 = \text{Rs}107.50$.

Further, the lower and upper price band on both exchanges would be 5% around the aforesaid price of Rs 107.50 and the unexecuted pending orders of the Call Auction session, lying within this price band, would be carried to normal session.

The above mechanism is effective from t date June 12, 2023.

National Stock Exchange of India Limited

[Go to Index](#)

J. Unmatched orders

In case of IPO and SME IPO securities

All unmatched limit orders within applicable price range (as per SEBI circular CIR/MRD/DP/01/2012 dated January 20, 2012) in the Special Pre-open session (SPOS) will be moved in the normal market session at their limit price on the basis of the price-time priority. This transfer will be done irrespective of equilibrium price discovered or not.

In case of Re-listed Securities

In case of equilibrium price is determined, all unmatched orders within applicable price range (as per SEBI circular CIR/MRD/DP/01/2012 dated January 20, 2012) will be moved to the normal market at their limit price on the basis of the price time priority.

If the equilibrium price is not determined, all the orders shall be cancelled by the system at the end of Special Pre-open session (SPOS). Security will not be available for trading in normal market if equilibrium price is not determined in any of the Exchange and the Special Pre-open session (SPOS) for the said security will be conducted on subsequent trading day.

In case of stocks having derivatives contracts prior to undergoing scheme of arrangement/corporate restructuring.

All unmatched orders of the 1-hour call auction session that fall within the 10% dynamic price band of discovered price shall be moved to the normal trading session at their limit price.

In case equilibrium price is not discovered, all the outstanding orders shall be cancelled, and the stock shall continue to trade in call auction session on the first day until the price is determined.

K. Data dissemination

The information like Indicative equilibrium / opening price of scrip, total matchable / tradable quantity, total buy and sell quantity of the scrip shall be computed based on the orders in order book and shall be disseminated during Special Pre-open session (SPOS).

L. Index circuit filter

In case of IPO, SME IPO & Relisting securities:

If the normal market is closed due to Index based market-wide circuit filter breach anytime during the order collection period for a new listing of a security (IPO/SME IPO) and relisting of a security, the respective sessions shall be closed immediately, and all outstanding orders of these sessions shall be cancelled. A fresh session on the same day shall be conducted for new security (IPO/SME IPO) and relisting of a security. The fresh session shall be for duration of 1 hour out of which 45 minutes is for order collection/modification/cancellation, 10 minutes is for order matching and 5 minutes is buffer period. This session shall close randomly anytime between the 35th and 45th of the order collection period.

National Stock Exchange of India Limited

[Go to Index](#)

If the normal market is closed due to Index based market-wide circuit filter breach anytime during the order matching period for a new listing of a security (IPO/SME IPO), relisting of a security, the matching process shall be completed.

M. Reports

- The book type would be **CB** and market type would be **G** at the pre-open session (9:00 AM– 9:15 AM) in order and trade report provided to members.
- For all other reports, the trades executed in Special Pre-open session (SPOS) will be the part of the normal market.

N. Risk Management

- In respect of Call Auction orders for IPO scrips, SME IPO scrips re-listed scrips and stocks having derivatives contracts prior to undergoing scheme of arrangement/corporate restructuring margin is checked and blocked at the order level itself.
- For IPO scrips with issue size up to Rs 250 crs and re-listed scrips, orders received during Call Auction shall be validated for sufficiency of available capital at 100% of order value prior to acceptance of such orders.
- For IPO scrips with issue size greater than Rs 250 crs, orders received during Call Auction shall be validated at the applicable margin rate for sufficiency of available capital prior to acceptance of such orders.
- The existing risk management framework is applicable for trades resulting from Call Auction session.
- Orders received during Special Pre-open session (SPOS) shall be validated for sufficiency of available capital at 100% of order value prior to acceptance of such orders.

O. Dissemination of details of cancelled orders :

For pre-open call auction session, details of number and quantity of cancelled orders shall be available in the following ways :

- i. Displayed on the Exchange website on the below link :

<https://www.nseindia.com/market-data/new-stock-exchange-listings-today>

- ii. • Disseminated on NEAT terminal and through NNF API

1.3 Rolling Settlement

SEBI vide their press release ref. No. 220/2001 dated December 19, 2001 & SEBI circular no. IES/42365/2001 dated January 2, 2002, has indicated that there shall be no account period settlement from December 31, 2001. Hence, securities are available in rolling settlement. In the rolling settlement, the securities shall be made available in series “EQ” for equity shares.

1.4 Trade for Trade Settlement

As a measure of risk containment, the relevant authority shifts securities to Trade for Trade Settlement. Trading in such securities will take place in “BE/BZ” series. Transactions shall be cleared and settled on a trade for trade basis and there shall be no netting of transactions.

The details for series available for rolling and trade for trade settlement is available on the below link on NSE website:

<https://www.nseindia.com/market-data/legend-of-series>

1.5 T+1 Settlement

In accordance with SEBI circular no. SEBI/HO/MRD2/DCAP/P/CIR/2021/628 dated September 07, 2021, and joint press release dated November 8, 2021, exchanges had specified securities eligible for T+1 settlement from time to time. Accordingly, all securities settlement cycle was transitioned to T+1 rolling settlement effective from January 27, 2023, in capital market segment.

1.7 Block Trading Session

The SEBI vide letter MRD/DoP/SE/Cir- 19/05 dated September 02, 2005, guidelines outlining a facility of allowing Stock Exchanges to provide separate trading window to facilitate execution of large trades. The Exchange has introduced new block window mechanism for the block trades from January 01, 2018. Further as directed by SEBI via circular no. SEBI/HO/MRD/MRD-PoD-3/P/CIR/2024/172 dated December 10, 2024 regarding Enhancement in the scope of optional T+0 rolling settlement cycle in addition to the existing T+1 settlement cycle in Equity Cash Markets. Trading in Block window was extended to securities eligible for T+0 rolling settlement cycle too w.e f May 02,2025.

Following are the features of Block Trades:

A. Market Type & Series

Trading will be conducted in the Odd Lot market (market type 'O') with Book Type 'OL' and series 'BL/TL'.

B. Trading hours

Session Timings	Applicable for
Morning Block Deal Window: 08:45 AM to 09:00 AM IST	All securities eligible for trading under T+0 and T+1 settlement cycle.
Afternoon Block Deal Window: 02:05 PM to 2:20 PM IST	All securities eligible for trading under T+1 settlement cycle only

There shall be no pre-open and post close in the block trade session.

C. Order

National Stock Exchange of India Limited

[Go to Index](#)

The minimum order size for execution of trades in the Block deal window shall be Rs.10 Crores.

D. Trading module

Orders will get matched when both the price and the quantity match for the buy and sell order. Orders with the same price and quantity will match on time priority i.e. orders which have come into the system before will get matched first.

E. Reference price:

Morning Block Deal Window (First session): The reference price for execution of block deal in first session shall be the previous close price or adjusted close price / base price of the corresponding T+1 settled security in regular market for both “TL” & “BL” series.

New security (security trading in special pre-open session i.e., IPO and Relisted security) shall be eligible only in second session of block deal window on listing day under BL series, subject to successful price discovery. Post price discovery, base price shall be the discovered price.

Afternoon Block Deal Window (Second session): The reference price for block deals in this window shall be the volume weighted average price (VWAP) of the trades executed in the security in the cash segment between 01:45 PM to 02:00 PM. In case no trades are executed in the security in the cash segment between 01:45 PM to 02:00 PM, the reference price shall be considered as follows:

- VWAP based on trades executed in the security between 9:00 am to 1:45 pm shall be taken as reference price. For the computation of VWAP, the trades of pre-open / special pre-open session as the case may be, shall also be considered.
- In case VWAP is not available as per above, then the previous day's adjusted close price / base price shall be considered as reference price.

The Exchange shall calculate and disseminate/ broadcast the applicable price range for the execution of block deal between 02:00 PM to 02:05 PM on the trading terminal.

F. Price

The orders placed shall be within $\pm 1\%$ of the applicable reference price in the respective windows as stated above.

G. Market Order

Market orders are not allowed for BL/TL series.

National Stock Exchange of India Limited

[Go to Index](#)

H. Special Terms

Order with special terms such as 'Stop Loss', 'Disclosed Quantity' shall not be available in this session.

I. Bhav Copy

Security statistics pertaining to this session trades shall be shown separately in the Market Statistics Report. Last trade price would be the close price for BL series since BL series is not available for trading in the last half hour of odd lot market.

J. Setting up Securities in Market Watch

For setting up securities in the Market Watch screen, the user has to press the function key [F4], enter the required details in Symbol, Series and Market Type fields and press [Enter]. The default option displayed in the market type field is 'N'. This can be changed to 'O' using the Up/Down arrow keys. The series has to be specified as 'BL/TL'.

K. Order entry

Buy/Sell order can be entered in Block trades session using the function keys (F1/F2), selecting 'OL' in the Book Type field and series as 'BL'. Order entry in BL series shall be in multiples of lot for securities on which lot size is applicable. The field "BoardLotQuantity" in security.txt & nnf_security.dat file shall have the applicable lot size.

L. Order Cancellation/Modification

Order cancellation and modification is allowed for orders entered in the Block trades session. Both Single and Quick Order Cancellation functions are available. In case the quantity or price of a security is modified, the order time shall be re-stamped. Only Price & Quantity modification is allowed. Modification of other order attributes such as conversion from limit to market is not allowed. However, trader can delete pending block deal order and can re-submit fresh order.

M. MBO

MBO for Block trades session shall be available on inquiry basis. Hence, members have to re-invoke the screen in order to view the latest update. Members can query order information for the Block trades session in MBO by selecting 'ODD LOT' as book type and series 'BL/TL' in the selection screen. Orders are stacked as per price-time priority in MBO. The high, low, last trade price, percentage change and average trade price figures are calculated with respect to trades in Block trades session. MBP functionality is not available for Block trades session.

N. Market Inquiry

National Stock Exchange of India Limited

[Go to Index](#)

Security statistics for Block trades session can be viewed by selecting 'ODD LOT' as market type and series as 'BL/TL'.

O. Outstanding Orders/Activity log/ Previous Trade

- Outstanding order/ Activity log/ Previous Trade information in a particular security can be viewed for Block trades session by selecting the book type 'ODD LOT' and series 'BL/TL' in outstanding orders screen and market type 'ODD LOT' and series 'BL/TL' in the Activity Log and Previous Trade screens.
- Outstanding orders of block deal session 1 is not carry forward to block deal session 2.

P. Order and Trade Confirmation Slips

The order confirmation slip for orders entered in Block trades session displays 'O' as Market Type field and series 'BL'. Similarly, trade confirmation slip generated for Block trades session trades show 'O' in the Market Type field and series 'BL/TL'.

Q. Net Position

The Net Position screen displays consolidated statistics for all markets as well as separately for each market.

R. Market Movement

Market Movement statistics for a security can be viewed by selecting market type as 'Odd Lot' and series 'BL/TL'.

S. Most Active Securities

In Most active securities screen data is displayed symbol-series wise. This screen would display price statistics of BL/TL series also if it figures in the most active list.

T. On-line Backup

In the On-line Backup function, a facility is provided to select order/trades based on Market Type and series. Alternately, members can take a backup for all markets by selecting 'All' in the market type field.

U. Full Message Display

In Full Message Display, messages can be filtered on Symbol and Series. The option to filter messages for a market type is presently not available. Hence, messages for a Symbol-Series shall be displayed for all markets.

V. Branch/User Order Value Limit

National Stock Exchange of India Limited

[Go to Index](#)

Branch/User Order Limit is applicable for a particular Branch/User across all Markets.

W. Order Limit

Order limits set by a user are applicable for a single order across all Markets.

X. Ticker Selection

A facility is provided for filtering securities in the ticker for Odd Lot market.

Y. Reports

Trades reports generated for members i.e., Trades Done, Order Log, displays records in ascending order of security name. Within a security, records are displayed by Market Type.

Z. Advanced offline order entry

AA. Facility to enter order in Block session through advance offline order entry.

BB. Index Circuit Filter

In the event of Index based market-wide circuit break during the second session, then the second session shall be closed. Further, if there is Index based market-wide circuit break before second session, and for any reason normal trading is halted/not conducted for any length of time during 1:45 PM to 2:00 PM or 2:05 PM to 2:20 PM; the block deal second session shall not be conducted for the day.

1.12 Small and Medium Enterprises (SME):

As per Circular no NSE/CMTR/21587 dated August 31, 2012, the Exchange introduced SME platform in capital market segment to enable trading in emerging companies. The SME platform is a hybrid system which

National Stock Exchange of India Limited

[Go to Index](#)

comprises of Continuous order mechanism (Normal Market) as well as Call auction mechanism. SME securities shall be available either in call auction or continuous session at any point of time. Trading in SME platform would be anonymous except for market maker quotes or transactions which would be identified distinctly with #.

Continuous Market

All book types / market types currently available on the main board would be available for securities listed in the SME platform. Orders would be matched and executed at price time priority on a continuous basis.

Call Auction Market

A. Call auction session shall comprise of two phases:

Order Collection Period

- During this period orders can be entered, modified, and cancelled.
- Both Limit and market order will be allowed.

The information like Indicative equilibrium / opening price of scrip, total buy and sell quantity of the scrip, would be computed, and disseminated during this period.

Order Matching Period

- Order matching period will start immediately after close of order collection period.
- Order will be matched at a single (equilibrium) price which will be open price.
- Post matching, trade details will be disseminated to respective members.

B. Unmatched orders:

All unmatched orders shall be cancelled by the system at the end of call auction session.

C. Determination of Equilibrium price:

- The equilibrium price will be price at which the maximum quantity is tradable excluding quantity tradable between market maker.
- In case more than one price meets the said criteria, the equilibrium price will be the price at which there is minimum order imbalance quantity. The absolute value of the minimum order imbalance quantity will be taken into consideration.

Imbalance quantity = Cumulative buy quantity - Cumulative sell quantity

National Stock Exchange of India Limited

[Go to Index](#)

- In case more than one price has same minimum order imbalance quantity, the equilibrium price will be the price closest to the last traded price, if traded on that day (LTP), else previous day's closing price.
- In case LTP or previous day's closing price is the mid-value of pair of prices which are closest to it, then the LTP or previous day's closing price itself will be taken as the equilibrium price. In case of corporate action, previous day's closing price will be the adjustable closing price or the base price.
- Both limit and market orders shall reckon for computation of equilibrium price.
- In case of only market orders exists both in the buy and sell side, then order shall be matched at LTP or previous days close price or adjusted close price / base price.
- If both the side only market maker orders no price will be determined.

D. Matching Logic:

- Order will be matched at a single (equilibrium) price as per the following sequence based on price time priority.
- Buy market maker orders will match with sell non-market maker limit and market order respectively.
- Sell market maker orders will match buy non-market maker limit and market order respectively.
- Remaining non-market maker to non-market order will match as limit to limit, limit to market and market to market respectively.
- No matching of orders would be carried out between market maker orders.
- Market making is applicable for the normal market from 09:00 hrs to 15:30 hrs.
- Market makers cannot place MKT orders during the post-close session, orders shall be rejected with error code 16418 (Order entered has invalid data) if placed during post close.

E. Market timings

Market timings for continuous & call auction markets is given below:

Continuous Market: 9:15 AM to 3.30 PM

Closing Session: 3:40 PM to 4:00 PM

(Detailed timings given in Trading Hours chapter below)

In case of Listing/Relisting

Special pre-open session (Special Pre-open session (SPOS)) using call auction mechanism of duration of 60 minutes from 09:00 am to 10:00 am.

In case of existing listed SME securities

The pre-open session (regular) using call auction mechanism of duration of 15 minutes from 9:00 am to 9:15 am.

National Stock Exchange of India Limited

[Go to Index](#)

At the end of the call auction session, order matching would take place at the equilibrium price as explained above.

F. Eligible Members

All members eligible for capital market segment are eligible to trade on SME platform. No separate membership is required for trading on SME platform.

G. Market parameters

- Lot size - As per SEBI circular no CIR/MRD/DSA/06/2012 dated February 21, 2012, applicable market lots for SME securities is given below:

more than 14 upto 18	8000
more than 18 upto 25	6000
more than 25 upto 35	4000
more than 35 upto 50	3000
more than 50 upto 70	2000
more than 70 upto 90	1600
more than 90 upto 120	1200
more than 120 upto 150	1000
more than 150 upto 180	800
more than 180 upto 250	600
more than 250 upto 350	400
more than 350 upto 500	300
more than 500 upto 600	240
more than 600 upto 750	200
more than 750 upto 1000	160

National Stock Exchange of India Limited

[Go to Index](#)

Above 1000	100
------------	-----

The above lot size is applicable based on the issue size at the time of listing. The Exchange may review the lot size once in every 6 months / wherever warranted, by giving an advance notice of at least one month to the market. However, as far as possible the stock Exchange shall ensure those odd lots are not created. Further, the lot size would only be revised to lower lot size. Investors with holdings less than minimum depth (market lot) shall be allowed to sell their complete holdings in the odd lot market. The buyer for the odd lot shall be the market maker appointed for the security.

- Tick size - 5 paise
- Price band – As applicable based on Exchange Regulatory.
- Market type - Market type for SME call auction session would be “CB” and for continuous session would be “N” and “PO” as per the trading session.
- Series –SME securities would be distinctly identified as under:
 - Rolling settlement with series as SM (EQ equivalent)
 - Trade for Trade with series as ST (BE equivalent)
 - Trading in SZ series (BZ equivalent)
 - Block trading window with series as SL (BL equivalent)
 - Odd lot trading window with series as SO (for odd lots trading)
 - Qualified foreign investor with series as SQ (IQ equivalent)

Note: Block trading session is not applicable for SME scrips

H. Index circuit filter:

Pursuant to SEBI circular ref.no CIR/MRD/DP/25/2013 dated September 03,2013, if the normal market is closed due to Index based market-wide circuit filter breach anytime during the order collection period for SME, the respective session shall be closed immediately, and all outstanding orders of this sessions shall be cancelled. However, if the normal market is closed due to Index based market-wide circuit filter breach anytime during the order matching period for SME securities the matching process shall be completed.

I. Market Makers obligations on SME Platform:

National Stock Exchange of India Limited

[Go to Index](#)

As per SEBI wide circular Nos. CIR/MRD/DP/14/2010 dated April 26, 2010, and CIR/MRD/DSA/17/2010 dated May 18, 2010, market making is mandatory in respect of all securities listed and traded in SME platform. Merchant bankers shall ensure market making through trading members of SME securities for a minimum period of three years from the date of listing of a security issued in accordance with the SEBI stipulation in the above mentioned circular, or from the date of migration from NSE Capital Market Segment in terms of the SEBI Issue of Capital and Disclosure requirements (ICDR) Regulation, 2009, as the case may be.

Market making shall be carried out by eligible trading members registered as market makers with NSE. These norms are applicable to all registered market makers for making market in securities listed and traded on SME segment of NSE. A market maker can place both PRO as well as CLI orders in SME securities from market maker User ID. However, only PRO orders placed from market maker user id shall be considered for market making.

Exchange has provided facility for digital submission of request for Market Making user-id activation and deactivation for eligible Small and Medium Enterprises (SME) securities which are available for trading on Exchange Platform, through ENIT for faster processing and online tracking of the application status. Members can send their requests for the following services through ENIT application for SME scrips:

1. Appointment of Market Maker (new market maker / new user id mapping)
2. Discontinuation of Market Maker
3. Change of Market Maker

Members can login to member portal and access the module on path:

- ENIT-NEW-TRADE > Trade > Market Maker > Appointment of Market Maker
- ENIT-NEW-TRADE > Trade > Market Maker > Deactivation of Market Maker

Further, the Exchange disseminates the list of Market Makers for the respective SME scrip on NSE website on the below link :

File Name	Securitywise_Market_Maker.csv

11 to 15	2
16 to 20	2.5
21 to 25	3
26 to 30	3.5
31 to 35	4
36 to 40	4.5
41 to 45	5
46 to 50	5.5
51 to 55	6.5
56 to 60	7.5
61 to 65	8.5
66 to 70	9.5
71 to 75	10.5
76 to 80	11.5
81 to 85	12.5
86 to 90	13.5
91 to 95	14.5
96 to 100	15.5

Note : the above grid is just for illustration purpose and the same requirement of network shall be applicable for count of companies above 100 also.

Important points to be noted:

National Stock Exchange of India Limited

[Go to Index](#)

- At the time of listing, if any market maker thus appointed by the company doesn't fulfil the criteria, then Exchange shall not enable such non-compliant market maker for the said company and it will be sole responsibility of the company/lead manager to re-appoint another market maker.
- All members who are acting in the capacity of market maker for SME companies are required to be compliant with net worth requirement based on number of companies undertaken for market making as per the above table during their market making period.
- Further, as defined in the SEBI circular CIR/MRD/DP/14 /2010 dated April 26,2010, there should NOT be more than five Market Makers for any SME company.
- In case of any non-compliance, the market maker may have to face regulatory action for the same.
- The procedure for submitting the request for activation / deactivation of user id for market making is provided in Exchange circular reference number [NSE/MSD/43522](#) dated February 13, 2020.

1.13 Call Auction session for illiquid securities:

Based on guidelines of SEBI circular no. CIR/MRD/DP/6/2013 dated February 14, 2013, and SEBI circular no. CIR/MRD/DP/38/2013 dated December 19, 2013, Exchange conducts Periodic Call auction session for illiquid scrips on daily basis.

Further, as per Exchange circular ref number NSE/SURV/64400 dated October 04,2024, SME securities shall also be eligible for trading in this session.

Features of Illiquid session are as follows:

A. Session timings

Periodic call auction session of one hour each is conducted throughout the trading hours with the first session starting at 9:30 am and last session ending at 3:30 pm. The session shall close with system driven random closure during the last one minute of order entry i.e., between the 44th & 45th minute.

Session Details	Call Auction Start Time	Call Auction End Time
Session 1	9:30 AM	10:30 AM
Session 2	10:30 AM	11:30 AM
Session 3	11:30 AM	12:30 PM
Session 4	12:30 PM	1:30 PM
Session 5	1:30 PM	2:30 PM
Session 6	2:30 PM	3:30 PM

B. Criteria

Security which trades in the normal market and is not shifted to trade for trade settlement shall be classified as illiquid if following conditions are met:

- Average daily turnover of less than Rs.2 lakhs calculated for previous two quarters and
- The security is classified as illiquid at all exchanges where it is traded

Of securities identified as per above criteria, securities which satisfy any of the following conditions shall be excluded.

- Securities with average market capitalization more than Rs.10 Cr.
- Securities where company is paying dividend in at least two out of last three years.

National Stock Exchange of India Limited

[Go to Index](#)

- iii. Securities where company is profitable in at least 2 out of last 3 years and not more than 20% of promoters shareholding is pledged in the latest quarter and book value is 3 times or more than the face value.

C. Entry & Exit of Securities

At the beginning of every quarter, securities shall be identified as illiquid/ normal as per the above criteria. Securities shall move in/or out of periodic call auction from second Monday or the next working day of the following quarter. Further, security which has remained in periodic call auction for at least one quarter and not classified as illiquid as per the criteria prescribed above shall be excluded.

D. Notice to market

Notification on the list of illiquid securities for the quarter shall be issued to market participants at least two trading days in advance.

E. Market parameters

Lot Size & Tick Size	Same as Normal Market
Book type	CB
Market type	G
Series	EQ/BE/BZ/SM/ST/SZ
Settlement	Rolling / trade for trade as the case may be

F. Price band

Price bands may be as applicable in normal market session or as notified by surveillance from time to time subject to a maximum price band of 20%.

G. Eligibility in Other markets

Securities eligible in call auction session shall not be available for trading in continuous session.

H. Trading session

The Call auction shall comprise of order collection and order matching period.

I. Unmatched order

The orders may remain valid throughout the trading day and un-matched orders remaining at the end of a call auction session may be moved into next call auction session.

National Stock Exchange of India Limited

[Go to Index](#)

J. Index circuit filter

In the event of Index based market-wide circuit break during the order collection period, the session shall be cancelled, and all orders shall be purged. In the event of trigger during the order matching period, matching process will be completed. The periodic call auction session shall be resumed at the next call auction after the normal market resumes.

ITEM 3

MARKET PARAMETERS

3.1 Price Band

In pursuance of Clause 2.5.1 of Part A of the Capital Market Trading Regulations, the Exchange clarifies the requirement as regards price band for securities under different circumstances detailed below.

A. Securities listing after Initial Public Offering:

For issue size up to Rs. 250 Cr., trading shall take place in the Trade for Trade segment for the first 10 days with applicable price bands, wherein for the first day:

- No price band during Special Pre-open session (SPOS) through call auction mechanism
- The price band in the normal trading session shall be 5% of the equilibrium price / issue price.

For issue size greater than Rs. 250 Cr., the applicable price bands for the first day shall be:

- No price band during Special Pre-open session (SPOS) through call auction mechanism
- The price band in the normal trading session shall be 20% of the equilibrium price / issue price.

B. Re-listed Securities

Trading shall take place in the Trade for Trade segment for the first 10 days with applicable price bands, wherein for the first day:

- A. No price band during Special Pre-open session (SPOS) through call auction mechanism
- B. The price band in the normal trading session shall be 5% of the equilibrium price.

C. No Price Band

There is no price band in respect of securities, for which derivative products are available. However, in order to prevent members from entering orders at non-genuine prices in such securities based on Pre-trade risk control guidelines, the Exchange has set the dummy circuit (dynamic price bands) filter (operating range) at 10%.

In the event of a market trend in either direction, the dynamic price bands may be relaxed by 5% at a time in the direction of the price movement during the day in co-ordination with the other Exchanges as follows:

National Stock Exchange of India Limited

[Go to Index](#)

- I. If the last trade occurs at 9.90 % or more of the base price, the dynamic price band shall be relaxed to 15%. Subsequently, if the last trade occurs at 14.90% or more then the same would be relaxed to 20% and so on by relaxing dynamic price band in the following manner.
- For the first two instances of flexing, the price band would be flexed by 5% of yesterday's closing price after the cooling off period. This cooling off period would be 15 minutes if conditions for flexing are satisfied before last half an hour of trading and 5 minutes if conditions for flexing are satisfied in the last half an hour of trading.
 - For subsequent two instances of flexing, price band would be flexed by 3% of yesterday's closing price after the cooling off period of 30 minutes.

For subsequent instances of flexing, price band would be flexed by 2% of yesterday's closing price after the cooling off period of 60 minutes.

- II. For the purpose of relaxing the dynamic price bands, the Exchange will take into account that a minimum of 50 trades must be executed with 10 different UCCs and 3 unique trading members on each side of the trade at or above 9.90 % or more of the base price. If the dynamic price band is relaxed by another Exchange.
- III. Whenever the price band of a scrip is flexed in the direction of price movement in the manner as specified point I and II above , then price band on the other side (i.e. lower band in case of upward price movement and higher band in case of downward price movement) would also be flexed concurrently by equivalent amount in the direction of price movement. Thus, ensuring that the price band slides in the direction of price movement instead of expanding. The pending orders with limit prices which are not within the new price band would be cancelled by the Exchange:

- Sliding price band on account of flexing as mentioned above is explained in the below illustration:

Upward flex scenario (Table 1.1.1)

Stock	Close price on (T-1 day)	Price band applicable on (T Day) start of day	Lower Band	Upper Band	If Upper price band Flexed to	Price Band as per existing framework	Price Band as per revised framework
A	Rs 100	10%	Rs 90	Rs 110	Rs 115	Rs 90-Rs 115	Rs 95-Rs 115

Downward flex scenario (Table 1.1.2)

Stock	Close price on (T-1 day)	Price band applicable on (T Day) start of day	Lower Band	Upper Band	If Lower price band Flexed to	Price Band as per existing framework	Price Band as per revised framework
A	Rs 100	10%	Rs 90	Rs 110	Rs 85	Rs 85-Rs 110	Rs 85-Rs 105

National Stock Exchange of India Limited

[Go to Index](#)

1.1. Consequently, for upward flex scenario (Table 1.1.1), all pending orders in RL (Regular Lot / Main order book) with limit prices between Rs. 90 to Rs. 95 which will now be outside the new price band, would be cancelled by Exchange system automatically, with appropriate intimation (details in point 4). However outstanding Stop Loss (SL) orders falling outside of such new price band shall not be cancelled. On trigger of the stop loss order, while releasing the order to the RL (Regular Lot / Main order book) book, only such orders with limit price within the prevailing price band shall be accepted by the Exchange system in RL (Regular Lot / Main order book) book (as per extant mechanism). Similar treatment would be given in the scenario of downward flexing (Table 1.1.2).

1.2. Subsequently with respect to scenario mentioned in Table 1.1.1, if the price trends downwards on the same day and hits the new lower band i.e. Rs. 95 in the above illustration, the new price band after flexing will be Rs. 90 to Rs.110, provided the objective criteria of flexing is satisfied.

(Table 1.3.1)

Stock	Close price on (T-1 day)	Current Lower Band	Current Upper Band	If lower price band Flexed to	Revised price band after flexing
A	Rs 100	Rs 95	Rs 115	Rs 90	Rs 90-Rs 110

2. In exceptional scenarios of highly volatile price movement in a scrip / current month (i.e. near month) futures contracts in the opposite direction within the cooling off period (for cooling off period refer NSE/CMTR/63404 dated August 14, 2024), the impending flex would be cancelled if such price movement breaches the midpoint of the price band (and also satisfies the objective criteria ^^ of flexing as per circular NSE/CMTR/62237 dated May 29, 2024, at or beyond the midpoint) during the cooling off period, before such impending flex is applied. Examples of such scenario are as under:

2.1. **For upward flex** – With reference to the example in Table 1.1.1, if price moves upwards at say 14:00 hrs and the new impending price band is Rs.95 to Rs.115 (existing band Rs.90 to Rs.110) with cooling off period - 14:00 hrs to 14:15 hrs. (NSE/CMTR/63404 dated August 14, 2024) and the underlying scrip price moves in the opposite direction(downwards) within this cooling off period and breaches Rs.100 (i.e. midpoint of existing price band – $\frac{Rs.90 + Rs.110}{2}$) and also meets objective criteria of flexing (i.e. 50 trades to be executed with 10 different UCCs and 3 trading members on each side of the trade as defined in NSE/CMTR/62237 dated May 29, 2024) at such price(Rs.100 or below). In such scenario, the impending actions of price flex in CM and FAO (NSE/CMTR/63404 dated August 14, 2024), i.e. sliding of price band and resultant order cancellation at 14:15 hrs shall be aborted. As a result of the above, the price band of the scrip will remain at Rs.90 to Rs.110 even after 14:15 hrs.

2.2. **For downward flex** – With reference to example in Table 1.1.2, if price moves downwards at say 14:00 hrs and the new impending price band is Rs.85 to Rs.105 (existing band Rs.90 to Rs.110) with cooling off period - 14:00 hrs to 14:15 hrs. (NSE/CMTR/63404 dated August 14, 2024) and the underlying scrip price moves in the opposite direction(upwards) within this

National Stock Exchange of India Limited

[Go to Index](#)

cooling off period and breaches Rs.100 (i.e. midpoint of existing price band – $((Rs.90+Rs.110)/2)$) and also meets objective criteria of flexing (i.e. 50 trades to be executed with 10 different UCCs and 3 trading members on each side of the trade - as defined in NSE/CMTR/62237 dated May 29, 2024) at such price(Rs.100 or above). In such scenario, the impending actions of price flex in CM and FAO (NSE/CMTR/63404 dated August 14, 2024) i.e. sliding of price band and resultant order cancellation at 14:15 hrs shall be aborted. As a result of the above, the price band of the scrip will remain at Rs.90 to Rs.110 even after 14:15 hrs.

2.3. Illustration

- 2.3.1. In case of Upward Flex trigger - When current Band is Rs.90-Rs.110 and the impending revised band is Rs.95-Rs.115, and the LTP is ≤ 100 (if the objective conditions as per ^ are met) then flex won't be initiated.
- 2.3.2. In case of Downward Flex trigger - When current Band is Rs.90-Rs.110 and the impending revised band is Rs.85-Rs.105, and the LTP is ≥ 100 (if the objective conditions as per ^ are met) then flex won't be initiated.
- 2.3.3. Mid-Point = $(\text{High Band} + \text{Low Band})/2 = (Rs.90+Rs.110)/2 = Rs.100$.

3. Message dissemination details are provided as below:

Particulars	For NEAT+ users	For NNF Users
Error message upon cancellation of outstanding orders for being outside the revised price band/range	<i>"Order price is outside the revised price range"</i>	NNF error code 16521 - Order price is outside the revised price range
Message disseminated upon flexing of price band/range	<i>"The revised price range for <Security symbol> is: Rs.<Min price> - Rs.<Max price>"</i>	NNF Transcode 18720 - BCAST_SECURITY_MSTR_CHG

- IV. In addition to the above, when conditions for flexing the price bands are satisfied on either underlying in cash market or current month (i.e. near month) futures contracts on any exchange, the price band would be flexed for the scrip and all the futures contracts on this scrip at the end of subsequent cooling off period.
- V. The price band revision shall be applicable for the day only.
- VI. Any order beyond the dynamic price band of 10% or subsequent relaxed price band, as the case may be, over the base price shall be subject to price freeze. Exchange shall suo moto cancel these orders.
- VII. In exceptional circumstances, all the exchanges shall consult and relax the dynamic price band.
- VIII. Price range shall be flexed in only those securities, on which derivatives products are available.
- IX. Price band shall be flexed only in the direction in which the price has been reached.
- X. The dynamic price bands may be flexed only after a cooling-off period as prescribed by SEBI.

National Stock Exchange of India Limited

[Go to Index](#)

D. Auction Market

Price band applicable for auction market is 20 %.

E. Other Securities

Price band is as decided by Surveillance department from time to time.

F. Scripts with low Non-Promoter holding

In furtherance to the NSE circular no. NSE/SURV/52090 dated April 22, 2022 and as per the joint Surveillance meeting of the Exchanges and SEBI the criteria for low Non-Promoter holding framework is mentioned as under.

Members are hereby requested to note that the securities shortlisted based on the below criteria of non-promoter holding < 25% will be subjected to surveillance action. The applicable surveillance actions shall be as under:

Maximum/highest price band applicable to be +10%

3.2 Quantity Freeze

Any order entered by a member exceeding Global alert quantity limit of more than 25000 shall result in an alert which will read as "Order entered exceeds alert quantity limit. Confirm availability of adequate capital to

National Stock Exchange of India Limited

[Go to Index](#)

proceed” and only after the member clicks the button ‘Yes’ the order will be further processed for execution.

After pressing the ‘Yes’ button, there will not be any check at the Exchange, but such order will directly go to the order book for execution. Hence, members are advised to take note of this alert and take utmost care before clicking the ‘Yes’ button.

In addition to above alert, the exchange has defined Quantity freeze limits on individual securities. These limits are revised on daily basis and are available in the security.txt file in % terms. Members are advised to ensure that no single order is placed beyond the limit stipulated for the security by the Exchange. Any such order received by the Exchange shall be suo moto cancelled.

In view of the aforesaid modification, everyday members will be required to invariably load the security.txt and nnf_security.dat file (downloaded everyday through Extranet) into the NEAT Plus software.

On and above existing quantity freeze check, any order placed with the value exceeding the permissible limit, shall be rejected and an error message “The order value has exceeded maximum permissible limit.” on TWS. This shall be applicable for orders placed in Pre-open Market, Normal market, Closing session, Call Auction Illiquid sessions and Special pre-open session.

3.3 Tick Size

The below are the tick sizes as applicable :

- A. In pursuance of Regulation 2.5.6 of the National Stock Exchange (Capital Market) Trading Regulations , the below are the tick sizes as applicable :

Particulars	Applicable Tick Size
All non-convertible/ convertible debt instruments and available for trading in Normal / Odd Lot / Auction market	0.01
All close ended mutual fund scheme instrument (series MF / ME)	0.01

National Stock Exchange of India Limited

[Go to Index](#)

- B. Further Exchange is has introduced price linked tick size in the Capital Market Segment (CM Segment). All securities (excluding Exchange Traded Funds) available in “EQ”, “T0”, “BE”, “BZ”, “BO”, “RL”, “AF” series (and their corresponding “BL” series as applicable) shall have tick size as per the below table:

Security Price		Tick Size
From	To	
Below 250		0.01
≥ 250	1,000	0.05
> 1,000	5,000	0.10
> 5,000	10,000	0.50
> 10,000	20,000	1.00
> 20,000		5.00

The Exchange reviews the tick size of a security on monthly basis. The closing price on the last trading day of the month in CM Segment shall be used to determine the tick size, which shall be made applicable for the next month.

The applicable tick size in case of new security will be as follows:

Sr	Scenario	Tick Size
1	Initial Public Offering	Issue price determined at allocation will be considered for reference price. Based on the reference price the applicable tick size as per the above table shall be fixed.
2	New Listing of security already listed on any other exchange	Last available closing price will be considered for reference price. Based on the reference price the applicable tick size as per the above table shall be fixed.

The applicable tick size in case of corporate action will be as follows.

Sr	Scenario	Tick Size
----	----------	-----------

National Stock Exchange of India Limited

[Go to Index](#)

1	New Security listing and parent security on account of corporate action	Tick size of parent security will continue irrespective of security price till the time of next monthly review.
2	Tick size in case of split, bonus, dividend, and right issue	Existing tick size of security will continue till the time of next monthly review.
3	In case of Relisted securities (child security due to scheme of arrangement, suspension revocation etc.)	Tick size shall be applicable as per the base price set. Based on the base price set the applicable tick size as per the above table shall be fixed.

All price related computations such as closing price, base price, common equilibrium price, settlement price, etc. will be aligned as per applicable tick size of the security.

The price band mechanism for the security will continue to be applicable as per current method and the price determined as per the band will be aligned as per tick size of the security.

C. Further, kindly refer to the respective product specification and trading parameters for the tick size of all other securities.

The applicable tick size for trading for a security will be available in the security files. Members are advised to load the updated security.gz/nnf_security.gz/NSE_CM_security_ddmmyyyy.csv.gz file in the trading application before trading on the effective date. These files can be obtained from the directory common/NTNEAT on the Extranet server. The security file (CM-MII-Security File (.gz)) is also downloaded on daily basis on NSE website on the below path: <https://www.nseindia.com/all-reports>

3.4 Daily Closing Price

Closing price is calculated only for securities/contracts traded for the day. The closing price is last half an hour value weighted average price.

In case security is not traded in last half an hour, last traded price of the day is the close price. In case security is not traded for the day, the latest available close price is considered as the close price for that day.

3.5 Trading Exigencies

I: Cancel on logout

COL facility at User level is being provided. Corporate Manager of a trading member can enable / disable user level COL flag for their users

The salient features of COL at User level are:

- Corporate Manager shall have an option to enable / disable the user level COL facility for their users
- By default, the User level COL facility shall be disabled for all users.
- If a user for whom User level COL flag is enabled logs out, all outstanding orders shall be cancelled for that user.
- Corporate manager can enable/disable users for COL before, after or anytime during the market hours.
- COL facility shall not be applicable for orders entered in Pre-Open and Call Auction Sessions.

II: Kill Switch

An additional facility 'Kill Switch' is being provided. When the Kill switch function is executed, all outstanding (except pre-open & call auction session) orders shall be cancelled.

A) Trading member level:

The trading member level kill switch shall be available to Corporate Manager of a trading member.

When trading member level kill switch is executed, all outstanding orders (excluding pre-open and call auction session orders) of that trading member shall be cancelled.

The salient features of trading member level Kill Switch are:

National Stock Exchange of India Limited

[Go to Index](#)

- Only corporate manager can execute this Kill Switch.
- All outstanding orders (excluding pre-open and call auction session orders) of all users of that trading member shall be cancelled.

B) User level:

The User level kill switch functionality shall be available to all users. When user level kill switch is executed, all outstanding orders (excluding pre-open and call auction session orders) for that user shall be cancelled.

The salient features of Kill Switch at user level are:

- User Level Kill Switch is available to all users.
- On executing user level Kill Switch, all outstanding orders (excluding pre-open and call auction session orders) entered by that user shall be cancelled.

3.6 Pre-Trade Risk Controls –

A) Revised handling of ‘Market’ price orders with book type RL and time condition as Day / IOC, shall be applicable to all Securities in Capital Market (Equity) segment:

- ‘Market’ price orders **shall not** be allowed in a security which has not traded for the day i.e., LTP is not available for the day. Market orders received in such scenario shall be rejected by the Exchange and appropriate message shall be sent to respective trading terminal.
- Market Orders shall be allowed to be traded only up to certain mark-up/down price above/below Last traded Price (LTP) as follows:
 - At Normal Market Session Opening:
 - MPP shall be computed using the LTP i.e., Equilibrium Price (EP) determined in the pre-open/special pre-open session
 - During Normal Market Session (Intraday):
 - MPP shall be computed using the LTP
- Buy market orders shall be allowed to trade till $(1+X\%)$ of LTP
- Sell market orders shall be allowed to trade till $(1-X\%)$ of LTP
- Mark-up/down of $X\%$ above/below LTP, shall also be subject to minimum absolute value in Rs.
- The initial/remaining quantity* post sweeping the counter orders up to mark-up/down price during matching, if any,
 - Shall be cancelled automatically, if counter orders are outstanding beyond mark-up/down price on opposite side of book and appropriate messages shall be sent to respective trading terminal.
 - Additionally, if the market order is placed with day condition,
 - Shall be passivated at best price at same side, based on price time priority, if no counter orders are outstanding beyond mark-up/down price on opposite side of book.
 - Shall be passivated at LTP/Base price of the day (trade price of last trade of the day), if no orders are outstanding on both the side of book.

National Stock Exchange of India Limited

[Go to Index](#)

(* Remaining quantity could also be initial ordered quantity if there are no outstanding counter orders between LTP & mark-up/down price when order was entered.)

- In case of Stop loss (SL)-market order, mark up/down price to allow order to trade upto certain price as per aforesaid mechanism shall be determined based on LTP of the security when SL order gets triggered.
- The MPP validation is also be applicable for the order modification requests i.e., outstanding order is modified as Market order.
- MPP validation is applicable in conjunction with the existing OPR validation for orders.

MPP mechanism is not applicable for Block Trading Session, Pre-open session (Regular), Pre-open session 2 (Special pre-open session), Call Auction Sessions, Auction Market and Closing Session/Post close market.

The parameters to arrive at the mark-up/down w.r.t handling of Market Orders is set as follows: -

Segment	LTP	% Of LTP	Minimum absolute Range (Rs.)
CM	<=50	-	1.5
	>50	3%	-

B) Validation for Stop Loss Limit Order Entry :

Members are requested to note the below additional validation shall be applicable for SL-Limit Order.

- Incoming SL-Limit order having difference between trigger price and limit price of greater than permissible limit, shall be rejected by the Exchange.
- Formulation applicable for the aforesaid validation shall be as follows:
If $\text{Abs}(\text{limit price} - \text{trigger price}) > 'X\% * \text{trigger price}'$, Exchange shall reject the order.
- Value of ' $X\% * \text{trigger price}$ ' shall be subjected to minimum absolute range.
- The parameter to arrive at permissible limit shall be set as follows:

Segment	Trigger Price (Rs.)	X%	Minimum absolute Range (Rs.)
CM	<=50	-	1.5
	>50	3%	-

National Stock Exchange of India Limited

[Go to Index](#)

- The aforesaid validation shall be applicable for SL-Limit order modification request as well.
- Following error code shall be generated on rejection of order entry/order modification request:
16448 - Difference between limit price and trigger price is beyond permissible range

The Exchange may review the aforesaid mechanism and various applicable parameters from time to time based on the experience gained and inputs received from market participants / regulator.

Members should trade responsibly and cautiously, as trading away from normal prices and misleading or causing any disruptions in normal trading may result in inquiry, investigation, and regulatory actions.

3.7 Index Circuit Filter

As per SEBI circular number SMDRPD/Policy/Cir-35/2001 dated June 28, 2001, Exchange has implemented index-based market wide circuit breaker in compulsory rolling settlement from July 02, 2001. The index-based market wide circuit breaker system shall apply at three stages of the index movement either way at 10%, 15% and 20%. These circuit breakers shall bring about a coordinated trading halt in all equity and equity derivative markets nationwide.

The market wide circuit breakers shall be triggered by movement of either Nifty 50 or BSE Sensex whichever is breached earlier. Based on revised guidelines as per SEBI circular number CIR/MRD/DP/25/2013 dated September 03, 2013, Index circuit filter mechanism is modified w.e.f October 14, 2013, as below:

- Index based market-wide circuit filter levels at 10%, 15% and 20% shall be based on the closing index value of NIFTY 50 on the previous trading day, rounded off to the nearest tick size.
- All outstanding orders at the time of market halt, due to breach of index-based market-wide circuit filter, shall be cancelled.
- The market shall open, after index-based market-wide circuit filter breach, with a pre-open call auction session. The extent of duration of the market halt prescribed vide SEBI circular June 28, 2001, shall be reduced by fifteen minutes for pre-open call auction session, as given below:

Trigger Limit	Trigger Time	Halt duration	Pre Open call auction Session post each halt
10%	Before 1 PM	45 Minutes	15 Minutes

National Stock Exchange of India Limited

[Go to Index](#)

	At or After 1 PM up to 2.30 PM	15 Minutes	15 Minutes
	At or after 2.30 PM	No Halt	Not applicable
15%	Before 1 PM	1 Hour 45 minutes	15 Minutes
	At or after 1 PM before 2 PM	45 Minutes	15 Minutes
	On or after 2 PM	Market closed for the day	Not applicable
20%	Any time of the day	Market closed for the day	Not applicable

- If the normal market is closed due to Index based market-wide circuit filter breach anytime during the order collection period for a new listing of a security (IPO), relisting of a security, SME securities and illiquid securities periodic call auction session, the respective sessions shall be closed immediately, and all outstanding orders of these sessions shall be cancelled. A fresh session on the same day shall be conducted for new security (IPO) and relisting of a security. The fresh session shall be for duration of 1 hour out of which 45 minutes is for order collection/modification/cancellation, 10 minutes is for order matching and 5 minutes is buffer period. This session shall close randomly anytime between the 44th and 45th of the order collection period. The periodic call auction sessions for illiquid securities shall be held at the next scheduled time after the start of normal market.
- If the normal market is closed due to Index based market-wide circuit filter breach anytime during the order matching period for a new listing of a security (IPO), relisting of a security, SME securities and illiquid securities period call auction, the matching process shall be completed.

Exchange computes the Index circuit breaker limits (which are applicable for next trading day) for 10%, 15% and 20% levels on a daily basis based on the previous day's closing level of the index rounded off to the nearest tick size. These details are available on the below link on NSE website :

<https://www.nseindia.com/products-services/equity-market-circuit-breakers>

3.8 Trade Modification

Trades can be modified with respect to client code only till the end of trade modification time of the day.

National Stock Exchange of India Limited

[Go to Index](#)

Custodial Participant (CP) code modification facility & CP Trade confirmation/ rejection i.e. Give up functionality have been discontinued from trading system.

The below are the salient features of trade modification facility:

- Client code modification shall not be permitted in respect of trades in auction market.
- Trading members shall be able to modify client code and PAN (Permanent Account Number) in respect of client orders only on the trade date. Proprietary trades are not allowed to be modified to client trades and vice-versa. Trade modifications of a client code can be at the order level, hence all trades in respect of that order shall be modified with the client code provided against the order.
- Type of Trades and the eligibility criteria for trade modification is summarised as below:

Sr. No.	Description	Action	Remarks
1	Modify Trade from PRO to CLI	Not Permitted	
2	Modify Trade from CLI to PRO	Not Permitted	
3	Modify CP code for all trades of an order	Not Permitted on trading system	Respective clearing corporation shall inform the process
4	Modify CP code for a few trades of an order	Not Permitted on trading system	Respective clearing corporation shall inform the process
5	Modify client code for all trades of an order	Allowed	
6	Modify client code for a few trades of an order	Allowed	However, it may be noted that all trades for that order shall be updated to client code as per the latest trade modification at the end of the day.

ITEM 4

COMPLIANCE

4.1 Bulk & Block Reporting

Disclosure of Bulk / Block Deals:

SEBI vide its circular no. SEBI/MRD/SE/Cir-7/2004 dated January 14, 2004, has decided that members of the Exchange shall make disclosures to the Exchange with respect to all transactions in scrip where total quantity of shares bought / sold is more than 0.5% of the number of equity shares of the company listed on the Exchange.

With a view to impart transparency in bulk deals so as to prevent rumors /speculation about such deals causing volatility in the scrip price, it has been decided to bring about greater disclosure of such deals as mentioned below:

- The disclosure shall be made with respect to all transactions in scrip where total quantity of shares bought/sold is more than 0.5% of the number of equity shares of the company listed on the stock exchange.
- The brokers shall disclose to the stock exchange the name of the scrip, name of the client, quantity of shares bought/sold and the traded price.
- The disclosure shall be made by brokers immediately upon execution of the trade.

In case of Bulk Deals:

- **Single Trade:** Immediately upon the execution of the order where the traded quantity either buy or sell on account of any trade (client / proprietor) is more than 0.5% of the number of equity shares of the company listed on the stock exchange.
- **Cumulative Trades for the Day:** Within one hour from the closure of the trading hours, the quantity traded on that day either purchases or sale under proprietary or any single client code is more than 0.5% of the number of equity shares of the company listed on the stock exchange.

In case of Block deals:

- Trades executed in the block deal session for the day with Date, Symbol, Series, member code and Client Code combination will be considered.
- Quantity on both the sides (buy and sell) will be considered, if available.

Member of the Exchange shall make disclosures to the Exchange with respect to the information pertaining to bulk trades and /or trades done under the block deals session/market on the same day of trade.

National Stock Exchange of India Limited

[Go to Index](#)

Facilities provided by Exchange (Reporting):

- A. Listed Capital:** To facilitate members to ascertain the number of equity shares of the company members may please use the file (file name: bulkddmmyyyy.xls) available on the extranet under common/Cmmkt directory. The file applicable for the current trading day will be made available on the same day by 08:30 a.m. The format of the file is as follows:

Symbol	Series	Number of equity shares of the company.
--------	--------	-----------------------------------------

- B. Member files:** The Exchange provides an indicative report of bulk / block deals to the members on a daily basis after market hours. The indicative bulk / block deals report will also contain records for derived bulk deal.
- C. Points for consideration while calculating bulk/ block deals are as given below.**

For BULK Deal record

- Trades executed in the normal market for the day with Date, Symbol, Series, member code and Client Code combination will be considered.
- Where the total quantity for above combination exceeds (equal to or greater than) 0.5% of total listed capital either on buy or on sell side then the record will be identified as BULK deal.
- If BULK deal is identified on the buy side, sell side quantity for above combination in Normal market will also be considered.
- If BULK deal is identified on sell side, buy side quantity for above combination in Normal market will also be considered.

For BLOCK Deal record

- Trades executed in the odd lot market 'BL/TL' series for the day with Date, Symbol, Series, member code and Client Code combination will be considered.
- Quantity on both the sides (buy and sell) will be considered, if available.

For DERIVED BULK deal

- Trades executed in the odd lot market 'BL/TL' series for the day with Date, Symbol, Series, member code and Client code combination will be considered.
- Where the total quantity for above combination exceeds (equal to or greater than) 0.5% of total listed capital either on buy or on sell side then the record will be identified as DERIVED BULK deal.
- If DERIVED BULK deal is identified on the buy side, normal market trades (if any) for Date, Symbol, member code and Client Code combination on the buy side will be added in the quantity. Also, quantity for the trades executed in the odd lot market 'BL/TL' series and normal market trades for the aforesaid combination will be considered for the sell side.
- If DERIVED BULK deal is identified on the sell side, normal market trades (if any) for Date, Symbol, member code and Client Code combination on the sell side will be added in the quantity. Also,

National Stock Exchange of India Limited

[Go to Index](#)

quantity for trades executed in the odd lot market 'BL/TL' series and normal market trades for the aforesaid combination will be considered for the buy side.

Illustration

Symbol	Series	Client	Buy qty	Sell qty	Issue size (no. of shares) of ACC	0.5% of issue size to qualify as bulk deal
ACC	BL	XYZ	9,50,0000	9,50,0000	18,69,61,305	9,34,807

Say for example, there has been a deal which qualifies as a block deal as follows:

Since the buy or sell quantity is more than 0.5% of issue size of ACC, this deal also needs to be reported as bulk deal. Hence such deals have been defined as derived bulk deal.

In such case, trades executed for a particular client in the odd lot market ('BL' series) and normal market, trades for both the markets will be combined and given to the members.

D. To whom: To all the members who have traded on a given trading date.

Download Path: The respective bulk record details shall be available on member portal on ENIT on the below path: Member Portal >ENIT-NEW-TRADE > Trade > Bulk/ Block Reporting.

E. Bulk/ Block reporting on ENIT: As per circular reference number NSE/CMTR/35657 dated August 24, 2017, and NSE/CMTR/41318 dated June 14,2019, the details of Bulk/Block trades are also being made available on ENIT. The respective bulk record details shall be available on member portal on ENIT on the below path: Member Portal >ENIT-NEW-TRADE > Trade > Bulk/ Block Reporting. Members has to submit request for changes in Bulk/ Block reporting through ENIT for faster processing and online reporting for any disclosures to the Exchange with respect to the information pertaining to bulk trades and /or trades done under the block deals session/ market on the same day of trade.

The process for submitting such requests is being provided in the user manual available on member portal on the below path:

ENIT-NEW-TRADE > Trade > Bulk/ Block Reporting > User Manual

F. The member has to submit the request through ENIT for changes (if any) in the bulk/ block/ derived bulk disclosure report within **45 minutes** from the time the record is made available on ENIT.

In case of mismatch:

National Stock Exchange of India Limited

[Go to Index](#)

The members are required to verify each and every record in the files downloaded on extranet as well as on ENIT. In case the information provided by the Exchange is found to be matching with member records, the members need not send any information regarding bulk / block deals to the Exchange through ENIT.

In case of any mismatch, they should submit request for changes in Bulk/ Block reporting through ENIT, for any disclosures to the Exchange, with respect to the information pertaining to bulk trades and /or trades done under the block deals session/ market on the same day of trade. The same shall be done within 45 minutes from the time the indicative bulk / block deal report is downloaded on extranet and ENIT.

However, if no modification / changes are done by the member within 45 minutes from the time the indicative bulk / block deal report is downloaded and made available on ENIT; it will be assumed that there is no mismatch in respect of the data downloaded by the Exchange.

Finally, the same data will be disseminated on the Exchange's website. The Exchange will arrange to disseminate the aforesaid information after compilation on the same day to the public through its website - www.nseindia.com

Based on member feedback and in our continuous endeavor to provide new facilities to enhance user experience, following additional features were introduced in the module in ENIT for reporting changes in the disclosures for Bulk/ Block reporting:

- Facility for member to modify / update disclosure single / multiple sub-account for each record in the indicative bulk deals report as made available by Exchange on ENIT. Also, a facility to delete/update these modified records multiple times till the bulk/block window is closed on ENIT.
- Population and modification of PAN Nos. (Permanent Account Number) for all the records being displayed in the bulk / block reporting module on ENIT.
- Further, member can also modify / update disclosure of single / multiple records of multiple symbols in the indicative bulk/block deals report as made available by Exchange on ENIT.

4.2 Short Selling

SEBI vide circular no. MRD/DoP/SE/Dep/Cir-14/2007 dated December 20, 2007, has permitted all classes of investors to short sell subject to the broad framework as specified below. The guidelines of short selling are operationalized from April 21, 2008.

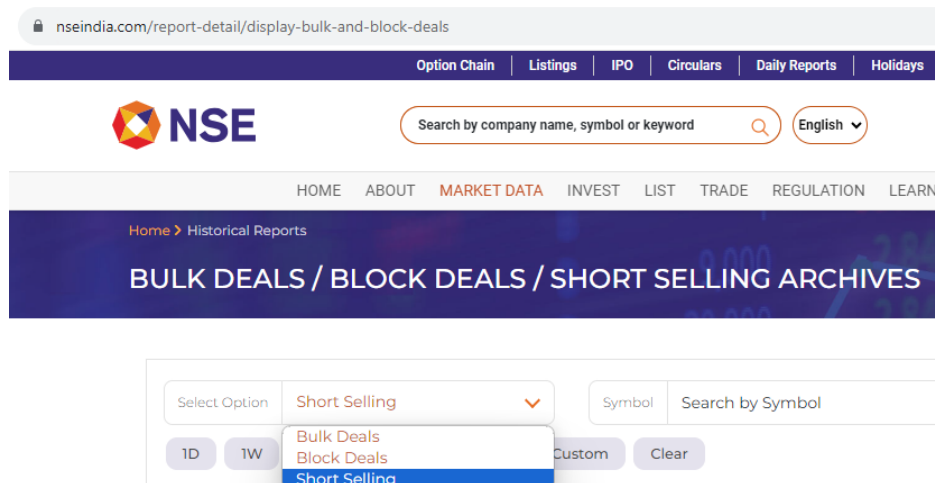

- Disclosure of short Selling:**

As per the SEBI directive, trading members are mandated to disclose scriptwise short sell positions to the exchange, in this regard, the exchange is providing facility to members to upload short sell information through Member portal for trading Members. The detail procedure for reporting short selling is provided below.

- Dissemination:**

The Exchange disseminates scrip wise short sell details on website on the below link :

<https://www.nseindia.com/report-detail/display-bulk-and-block-deals>

The screenshot shows the NSE India website interface. At the top, there's a navigation bar with links like Option Chain, Listings, IPO, Circulars, Daily Reports, and Holidays. Below this is the NSE logo and a search bar. The main header area includes links for HOME, ABOUT, MARKET DATA, INVEST, LIST, TRADE, REGULATION, and LEARN. The current page is titled 'BULK DEALS / BLOCK DEALS / SHORT SELLING ARCHIVES'. A dropdown menu is open, showing three options: 'Short Selling' (selected), 'Bulk Deals', and 'Block Deals'. There are also buttons for '1D', '1W', 'Custom', and 'Clear'.

Broad framework for short selling

- “Short selling” shall be defined as selling a stock which the seller does not own at the time of trade.
- All classes of investors, viz., retail, and institutional investors, shall be permitted to short sell.
- Naked short selling shall not be permitted in the Indian securities market and accordingly, all investors would be required to mandatorily honour their obligation of delivering the securities at the time of settlement.
- No institutional investor shall be allowed to do day trading i.e., square-off their transactions intra-day. In other words, all transactions would be grossed for institutional investors at the custodians’ level and the institutions would be required to fulfill their obligations on a gross basis. The custodians, however, would continue to settle their deliveries on a net basis with the stock exchanges.
- The stock exchanges shall frame necessary uniform deterrent provisions and take appropriate action against the brokers for failure to deliver securities at the time of settlement which shall act as a sufficient deterrent against failure to deliver.
- A scheme for Securities Lending and Borrowing (SLB) shall be put in place to provide the necessary impetus to short sell. The introduction of full-fledged securities lending and borrowing scheme shall be simultaneous with the introduction of short selling by institutional investors.
- The securities traded in F&O segment shall be eligible for short selling. SEBI may review the list of stocks that are eligible for short selling transactions from time to time.
- The institutional investors shall disclose upfront at the time of placement of order whether the transaction is a short sale. However, retail investors would be permitted to make a similar disclosure by the end of the trading hours on the transaction day.
- The brokers shall be mandated to collect the details on scrip-wise short sell positions, collate the data and upload it to the stock exchanges before the commencement of trading on the following trading day. The stock exchanges shall then consolidate such information and disseminate the same on their websites for the information of the public on a weekly basis. The frequency of such disclosure may be reviewed from time to time with the approval of SEBI.

Detail procedure for reporting short selling

The member can disclose details through the short selling details option provided under Short Selling disclosure in ENIT on Member portal as per below :

4.3 Trade Annulment

In accordance with SEBI circular no. CIR/MRD/DP/15/2015 dated July 16, 2015, the Exchange has modified the trade cancellation request procedure as specified in the aforesaid Exchange circular dated April 01, 2015, and has specified the Policy for annulment of trades undertaken on stock exchanges. Further the existing 'Trade Cancellation Request' shall be considered as 'Trade Annulment Request' for the purpose of SEBI circular.

SEBI in its circular expressly advises that "to ensure finality of trades executed on trading platforms of the stock exchanges, to the extent possible, annulment of trades should be avoided by the stock exchanges."

In order to discourage frequent or frivolous annulment requests, the following revised procedure and guideline for submission and processing trade annulment requests shall be applicable:

I. Submission of Trade Annulment Request:

Trade annulment request can be placed only by the executing trading members (buyer /seller) who have executed the trade to be annulled.

1. Prior to initiating the trade annulment request, the trading member shall ensure and certify the following:
 - i. that the member had taken adequate precautions such as defining order quantity limit; order value limit; user value limit; branch value limit and all the risk management measures as provided by the Exchange from time to time.
 - ii. that the orders related to the trade(s) to be annulled were routed after filtering them as per the risk management principles of the member,
 - iii. that the orders were in compliance with the order placement limits applicable to the dealer, branch and member.

National Stock Exchange of India Limited

[Go to Index](#)

- iv. that the member has a process in place to ensure that the orders leading to the trade(s) to be annulled were covered by adequate margins, where applicable.
 - v. that the orders were placed by a qualified dealer.
2. Mode of placing the annulment request:
- i. The trading system of the Exchange provides a facility to a member to initiate a trade annulment request in electronic form whereupon the member on the other side of the trade would receive the details of the trade annulment request anonymously.
 - ii. The member has to file the annulment request electronically only on the trading system provided by the Exchange.
 - iii. The Exchange shall electronically disseminate the request on trading system to all concerned counter party trading members to the trade(s) for which annulment is sought.
 - iv. Considering the strict timelines, Exchange shall not accept any request in any form or any other mode other than the screen based electronic mechanism provided by the Exchange. However, Exchange may permit filing of request in any other mode in exceptional cases.
 - v. Counterparty trading member who accepts the request has to respond on the trading system intimating their consent to annul the trade.
 - vi. The Exchange may seek additional information from such members for further scrutiny, if found necessary.

II. Criteria & Processing of Trade Annulment Request:

The trade/s for which annulment is requested shall have to fulfill all the conditions listed below for the Exchange to be taken up for further processing.

- Trade annulment requests should be placed only by the executing trading members (buyer /seller) who have executed the trade(s) to be annulled. Trade annulment requests placed by third parties viz. Clearing Member / trading member other than executing trading members, shall not be accepted for processing.
- Trade annulment requests should be submitted to the Exchange within 30 minutes of the execution of trade.
- A trade annulment request can only be made for an order of a minimum value of Rs 10 Crores.
- Minimum trade value of trade(s) originating from a single order for which annulment request is made should be Rs. 10 lakhs or above.
- The trade(s) in question are not within the price bands / operating range / trade execution range applicable at the time of trade.

National Stock Exchange of India Limited

[Go to Index](#)

- Trade(s) for which annulment requests are submitted should have been executed in the continuous session (Normal market).
- Trade(s) have not been executed in Block deal session (BL) and QFI trades (IQ).
- Trade(s) have not been executed with the same PAN number on both the buying and selling side.

Exchange shall require the trading members to submit additional information such as reason to request for trade annulment, whether similar trade annulment requests have been submitted simultaneously to other exchange etc. in electronic form through ENIT.

Path on ENIT for Trade annulment request:

ENIT-NEW-TRADE>Trade> Trade Compliance (Post Trade)> Trade annulment request

Trade Annulment requests fulfilling the conditions specified above shall be accepted for further processing and should satisfy the following additional criteria:

- Counterparty trading member should have provided acceptance to trade annulment in electronic form within 30 minutes after the market closure or within 30 minutes from time of trade annulment requests whichever is later. If the counterparty member does not intimate his consent within 30 minutes of market closure or within 30 minutes from time of trade annulment requests whichever is later, it will be deemed that the counterparty member does not consent to the request for annulment.
- The executing member and the member on the other side of the said trade for a trade annulment request is not the same.

The Exchange shall expeditiously, not later than start of next trading day, examine, and decide upon accepted annulment requests. The Exchange shall intimate the requesting member about the acceptance / rejection of the annulment request.

Where a trading member has requested for annulment of trade(s) to more than one exchange, Exchange shall coordinate with the other exchanges to take appropriate inputs to decide upon the trade annulment request.

Member may note that any trade annulment if accepted will not result in re-computation of index or bhavcopy.

III. Application fee for trade annulment request

A fee equal to 5% of the value of trade(s) for which annulment is requested, subject to minimum fee of Rs. 1 lakh and maximum fee of Rs. 10 lakhs shall be charged as Annulment Application fee for accepting the request. Such fee shall be debited from the Member's Exchange dues account or deducted from Member's money available with the Exchange on the day of receipt of trade annulment request. The amount so collected as Annulment Application Request fees shall be credited to Investor Protection Fund (IPF) of the Exchange.

IV. Dissemination of following information on Exchange website

National Stock Exchange of India Limited

[Go to Index](#)

Exchange shall disseminate the following details of trade annulment requests on its website www.nseindia.com:

- Details of receipt of trade annulment request.
- Details of decision on trade annulment request.

- V. A mechanism for review of the decision of the Exchange on Trade annulment request shall be provided. For the purpose of review the trading members shall submit a request for review to the Exchange before the payout deadline for the trades. The detailed procedure is provided in circular download ref. no. NSE/INVG/30931 dated October 12, 2015.
- VI. As prescribed in SEBI Circular para no. 4, in case there is more than 1 instance from the same trading member in the same segment in a calendar quarter, an additional amount equal to 1% of the value of trade(s), subject to minimum of Rs. 1 lakh shall be charged. This is being done to discourage frequent or frivolous requests and maintain the sanctity of the trades on the Exchange. This charge shall be non-reversible. This shall be in addition to the Annulment request application fee.
- VII. Members may note that pursuant to Byelaw 5 of chapter VII of the Byelaws, the Exchange may, to protect the interest of investors in securities market and for proper regulation of the securities market, suo motu annul trades at any time if the relevant authority is satisfied for reasons to be recorded in writing that such trade(s) is/are vitiated by fraud, material mistake, wilful misrepresentation or market or price manipulation and the like.

4.4 Proprietary Trading

As directed by SEBI and in pursuance of Byelaw 6 of Chapter IX of the Byelaws of the National Stock Exchange and in partial modification of Regulation 3.2.1 of the Capital Market Trading Regulations and without prejudice to the applicable provisions of the Securities Contracts (Regulations) Act, 1956 and other relevant statutes, it is hereby notified that it would be obligatory on the Trading members to specify the nature of the order in terms of the order being a client order or being on their own account at the time of order entry on the trading system.

Members are advised to note that the segregation of orders is possible on the order entry screen using 'CLI' for client account orders or 'PRO' for orders of members which are on their own account.

In accordance with the SEBI vide letter SEBI/MRD/SE/Cir-32/2003/27/08 dated August 27, 2003, Stock Exchanges is providing the facility of placing of orders on 'proprietary-account' through trading terminals to be extended only at one location of the Trading Members.

In view of the above it has decided that

- Facility of placing orders on proprietary account through trading terminals shall be extended only at one location of the members as specified / required by the members.

National Stock Exchange of India Limited

[Go to Index](#)

- Trading terminals located at places other than the above location shall have a facility to place orders only for and on behalf of a client by entering client code details as required / specified by the Exchange / SEBI.
- In case any member requires the facility of using proprietary account through trading terminals from more than one location, such member shall be required to submit an application to the stock exchange stating the reason for using the proprietary account at multiple locations and the Exchange may, on case to case basis after due diligence, consider extending the facility of allowing use of proprietary account from more than one location.
- Members requiring the facility of 'proprietary-account' through trading terminals from more than one location and / or CTCL are required to submit an undertaking. Format of undertaking is provided below. Member has to submit single proprietary undertaking for all segments.

The format and the checklist of the proprietary undertaking is attached as Annexure F

Further, the trading members shall be subject to and abide by all circulars, requirements, conditions, norms, guidelines and / or such terms as may be prescribed or required by NSEIL from time to time and the same shall become applicable ipso facto, upon its notice to the members by the Exchange.

Members may please note that the Pro trading facility is given to the user id for a specific location as mentioned in the application. Any change to the location / connectivity of user id shall result in deactivation of Pro trading facility.

Procedure For Applying for User trading rights and applying for Default location:

The trading system of the Exchange is accessed by a trading member through various modes of connectivity with unique combination of TM/ User ID/ Box ID/ IP and Password. Exchange, at the time of member onboarding allocates a unique user IDs with specific segment wise access.

In view of Exchange circular no. NSE/COMP/58554 dated September 25, 2023 regarding requirement of Base Minimum Capital (BMC). User id allotted by the Exchange based on member request shall be created without any trading rights.

Members desirous to trade through such newly allotted user id shall request for trading rights like PRO / CLI/PRO+CLI , in line with BMC category through a facility provided on member portal for User trading rights and for Default location applications electronically. Further, it may be noted that digital signature is imperative for accepting the applications through member portal. Hence, it is mandatory that all the applications sent electronically through member portal contain digital signature as allotted by the Exchange to authorized personnel of the trading firm.

Trading members may access this module by logging in on Member portal (<https://ims.connect2nsccl.com/MemberPortal/>). Member can login through corporate manager user id by entering User ID and password.

The navigation path for this module and for accessing user manual shall be as below:

National Stock Exchange of India Limited

4.5 Trading Through Other Trading Member

SEBI vide their letter SEBI/MIRSD//Cir-06/2004 dated January 13, 2004, has notified the norms relating to trading by members / sub brokers through other brokers/sub brokers of the same Stock Exchange or other Stock Exchanges.

The relevant contents of the circular are given below:

During the course of inspections carried out by SEBI of the books of accounts and other documents of members/sub-brokers, it has been observed that certain members/sub-brokers are dealing through a large number of other stock brokers/sub-brokers of the same exchange/other exchange for their proprietary trades as well as trades on behalf of clients.

Trading through large number of brokers/sub-brokers raises serious issues of regulatory concerns including taking excessive exposure, executing pro account trading from multiple locations in violation of SEBI circular no. SEBI/MRD/SE/Cir-32/2003/27/08 dated August 27, 2003, possibility of over leveraging and default etc.

National Stock Exchange of India Limited

[Go to Index](#)

With a view to address these concerns, to protect the interests of investors in securities and to promote the development of, and to regulate the securities market. stock exchanges ensures the following: -

- A Stock broker/sub-broker of an exchange cannot deal with brokers/sub-brokers of the same exchange either for proprietary trading or for trading on behalf of clients, except with the prior permission of the exchange. The stock exchanges while giving such permission, shall consider the reasons stated by the brokers/sub-brokers for dealing with brokers/sub-brokers of the same exchange and after carrying out due diligence allow such brokers/sub-brokers to deal with only one stock broker/sub-broker of the same exchange.
- A stock broker/sub-broker of an exchange can deal with only one broker/sub-broker of another exchange for proprietary trading after intimating the names of such stock broker/sub-broker to his parent stock exchange.
- As per Regulation 15(1) (e) of the SEBI (Stock Brokers and Sub-Brokers) Regulations, 1992 a sub-broker shall not be affiliated to more than one stock broker of one stock exchange. It is reiterated that a stock broker of an exchange can deal with only one broker of another exchange on behalf of clients after obtaining necessary registration as a sub-broker.

All trading members are advised to ensure due compliance of the direction of SEBI and refrain from indulging in any business not complying with the stipulated requirement unless otherwise permitted to do so by the Exchange.

Relevant Circular:

Download no.	Date
NSE/CMTR/4757	January 22, 2004

4.6 Debarred Client

Members may note that w.e.f April 16, 2012, orders and order/trade modifications placed for entities debarred by SEBI shall be rejected by the trading system with the message, "The Account is debarred from trading". For this purpose, UCC details uploaded by members will be matched with the SEBI specified lists of debarred clients. In addition to this, "Debarred Client Master maintenance" facility is available to restrict order for specific client at terminal level.

4.7 User Order Value & Branch Order Value Limit

Members are required to set definite limits for User Order Value Limit (UOVL) and Branch Order Value Limit (BOVL) for each user and branch. If definite limits are not set up, such users/branches may not be able to trade.

National Stock Exchange of India Limited

[Go to Index](#)

The daily report containing the various order level limits, set for users by their corporate manager/branch manager shall be downloaded to the members. The nomenclature and the detailed file structure of the report are given in Part-D.

4.8 Prevention of Self-trade

Self-Trade Prevention mechanism has been introduced on September 07, 2015, and revised mechanism w.e.f. April 08, 2019. Members are requested to note the following:

1. For PRO / Client (Non CP Code) order: If an active PRO / Client (Non CP Code) order is likely to match with any passive order (PRO / Non CP Code Client / CP Code Client) having the same PAN (Permanent Account Number) in the same order book; then the active or passive order (full or partial as the case may be) as per the option set in order entry shall be cancelled by the Exchange with rejection message “Order cancelled by the System – The order could have resulted in Self-trade”.
2. For Custodial Participant (CP Code) order:
 - a) If an active CP code order is likely to match with a passive CP code order having the same CP code (excluding CP code “INST”) in the same order book; **Or**
 - b) If an active CP code order is likely to match with a passive PRO / Client (Non CP code) order having the same PAN (Permanent Account Number) in the same order book;

Then the active or passive order (full or partial as the case may be) as per the option set in order entry shall be cancelled by the Exchange with rejection message “Order cancelled by the System – The order could have resulted in Self-trade”.

Thus, in case of a **Pro / Client** order entered by same/different members are resulting in self-trade due to same PAN or CP code, as the case may be, on the active and passive side, the same shall result in active or passive order getting cancelled as per the option set in the active order.

STP mechanism shall be applicable to pre-open, special pre-open, continuous normal market, block deal and call auction and closing session.

- a) In continuous normal market, block deal, and closing session, the mechanism shall be applicable during matching
- b) In pre-open, special pre-open and call auction session the mechanism shall be applicable during order entry period where on encountering a potential self-trade, the active order shall be cancelled by default irrespective of option set in the active order.

Member shall take due precaution to prevent self-trade while performing client code modification as per the methodology intimated by NSE Clearing Limited.

Accordingly, please note that the PAN Field is mandatorily required to be populated in order messages for all “**Pro**” and “**Client**” orders (Non-CP as well as CP clients). In cases where the investor is exempt from PAN, it

National Stock Exchange of India Limited

[Go to Index](#)

is mandatory to provide 'PAN_EXEMPT' in the PAN Field. Members shall be solely responsible for the correctness of PAN provided in order messages.

5.2 NEAT Adapter & Analysis Tool

NA (NEAT Adapter) is a real time system which is introduced by The National Stock Exchange of India to enhance the Trading System by changing existing 2-tier system to 3-tier system. NA is an application which is placed between Front-End and Host End so that all the communication between front-end and host-end will be through this NA Application.

To enhance the performance and flexibility, Exchange provides the facility of NEAT Adapter on Linux and Windows operating systems.

The latest available version setup files for Windows and Linux operating systems reside on extranet path [/common/NeatAdapter/](#). The Exchange periodically upgrades the NEAT Adapter versions and conducts mock trading sessions to test the connectivity using new versions and implement them in live environment on successful testing. The information pertaining to new version is provided by the Exchange through circulars updated on the NSE website.

Members are provided with the facility to carry out Neat Adaptor (NA) Analysis through Neat Adaptor (NA) Analysis tool. The user manual and analysis tool are available on extranet at [/common/NA_Analysis_tool](#).

5.4 Direct Connection

In Direct Connection, members can connect directly to Exchange. Member systems must initiate a TCP socket connection to the address given by the exchange.

- Members will first connect to a gateway router server in the respective segment, details of which will be published by the Exchange.
- The gateway router server will decide which gateway server is available for the member and will accordingly provide the details of the allocated gateway server to the member through the response message.
- After getting the response message the member will need to connect to the allocated gateway server.

For details regarding connection feature, members can refer to the NNF protocol documents.

The parameters for login through Gateway Router are as follows-

Primary (BKC) / DR site

Gateway Router IP Address	Existing Port*	New Port
172.19.12.85	10817	10819

* existing port shall be discontinued w.e.f. July 06, 2024.

5.5 STP System for Institutional Trades

Straight Through Processing (STP) is a mechanism that automates the end-to-end processing of transactions of financial instruments. It involves use of a system to process or control all elements of the work flow of a financial transaction, what are commonly known as the Front, Middle, Back office and General Ledger.

In other words, STP allows electronic capturing and processing of transactions in one pass from the point of order origination to final settlement. STP thus streamlines the process of trade execution and settlement and avoids manual entry and re-entry of the details of the same trade by different market intermediaries and participants. Usage of STP enables orders to be processed, confirmed, and settled in a shorter time period and in a more cost-effective manner with fewer errors. Apart from compressing the clearing and settlement time, STP also provides a flexible, cost-effective infrastructure, which enables e-business expansion through online processing and access to enterprise data. STP was launched in India in November 2002.

While several STP Service Providers have been providing STP service to the market participants, however, there was no inter-operability between the STP Service Providers.

To resolve the issue of inter-operability between the STP Service Providers, it was decided in consultation with the stock exchanges and the STP Service Providers that a STP Centralized Hub would be setup. Currently this STP Centralized Hub has been setup and made operational by NSE. NSE has obtained the necessary approvals from Department of Telecommunications (DoT) as an Internet Service Provider (ISP).

The STP service providers connect to the STP central hub for the purpose of sending and receiving messages between them. The STP Central Hub facilitates the smooth flow of messages between users of different service providers. With interoperability in place, the market participants can avail of the STP services offered by any of the service providers.

SEBI has vide its circular no DNP/Cir-22/04 dated April 1, 2004 directed that all the institutional trades executed on the stock exchanges shall be mandatorily processed through the STP System with effect from July 01, 2004.

A. STP Advantages

- Eliminates duplication of data processing
- Facilitates value added data processing
- Reduces operational risks and errors
- Systematic audit trail
- Timely exception processing

National Stock Exchange of India Limited

5.6 Standing Committee Computerized Trading System

- A. This is with reference to SEBI Circular No. SMD/POLICY/Cir-2/98 dated January 14, 1998, which, inter-alia, provides for setting up a Standing Committee to investigate the problems of Computerised trading system, such as, hanging / slowdown / breakdown.
- B. Pursuant to the observation made with regard to compliance on the issue during the inspection of stock exchanges conducted by SEBI and with a view to clarify the requirements under the aforesaid circular and to bring uniformity in implementation / compliance, the exchanges are advised as under: -
- All instances of hanging / slowdown / breakdown and any other problem in the computerized trading system, even if the disruption is less than five minutes, should be reported to the Committee for its consideration.
 - The Committee, upon examination of the issue/s shall submit a report to the Governing Board / Council of the Stock Exchange.
 - The Governing Board / Council of the Stock Exchange shall deliberate on the aforesaid report and take suitable action / remedial measure.
 - Further, in case of stoppage beyond five minutes the exchange should also explain and report to SEBI about the incident as well as the remedial measures taken. The Stock Exchange shall also issue a press release in this regard for greater transparency and in the interest of investors."

5.9 Guidelines for Disaster Recovery

I. In case of Switchover of Trading System to Disaster Recovery (DR) Site:

In pursuance of SEBI guidelines for Business Continuity Plan (BCP) and Disaster Recovery (DR) of Market Infrastructure Institutions (MIIs) specified in the SEBI circular SEBI/HO/MRD1/DTCS/CIR/P/2021/33 dated March 22, 2021, this is to inform that NSE trading system provides high availability of its services by having identical setup available at NSE DR site.

In case of contingency observed at the primary site, the Exchange may have to shift its operation from primary site to DR site. It is necessary that in such event necessary action shall be taken at member's end to bring their systems into a consistent state.

Members are requested to take note of below list of points in case of Exchange switchover to DR site pertaining to trading system:

1. Members will have to reconnect to trading system, as they will be disconnected once the primary site is unavailable.
2. Members should continue to use existing connectivity parameter for connecting to NSE trading system at DR site.
3. If members are connected to NSE trading system at the time of outage, they will receive start & end of outages messages on NEAT/NEAT+ login screen. Post receipt of End of outage message member can take login in trading terminal.
4. In case members are not connected to NSE trading system, they will receive start & end of outage messages as a part of journal download post reconnecting to NSE trading system at DR site.
5. Exchange shall not carry forward outstanding orders from primary site to DR site and no cancellation messages will be sent for these orders.
6. NSE's trading system constitutes of multiple matching engines (streams). Each stream hosts a range of securities / contracts on which trading is allowed. Exchange shall broadcast stream wise trade number of the last trade (Exchange trade number) available at DR site. Member may note that streamwise trades upto the last trade number shall only be considered as valid trades for the day.
7. Used limit value in User Order Value Limit (UOVL) and Branch Order Value Limit (BOVL) will be reset to zero after switchover to DR site.
8. Members shall require to re-initiate the requests raised for its users at Primary site for which the updates are not available at DR site after switch over.
9. Kindly note below points after switch over to DR site:

National Stock Exchange of India Limited

[Go to Index](#)

- a. Trades of primary site will be available in Previous Trades window.
- b. Trades can be modified/cancelled using Multiple Trade Modification and Cancellation window respectively.
- c. Messages of primary site will be available in TWS Message Area.
- d. Net position Inquiry window in NEAT Front-End shall be disabled in case of switchover of trading system to DR site.

10. If user renames or deletes the User folder and re-login the NEAT terminal, then data of primary site shall not be available in the functional window as mentioned above point.

11. Members may also refer to the website of NSE at www.nseindia.com for any information which may be updated by the Exchange regarding the same. For ease and convenience, FAQ is available on Exchange website <https://www.nseindia.com/trade/disaster-recovery-faqs>.

II. In case of Switchover of Trading to Alternate Trading Venue:

SEBI, vide circular SEBI/HO/MRD/TPD/P/CIR/2024/167 dated November 28, 2024 directed Exchanges viz NSE and BSE to implement a mechanism to handle potential outage that may occur during trading hours at either of the stock exchange by invocation of alternative trading venue. As per the SEBI circular, in the event of an outage, NSE will act as an alternative trading venue for BSE and vice versa.

In reference to the aforesaid, members are requested to take note of the following modalities for capital market segment:

A. Applicable securities/contracts:

Only applicable BSE exclusive securities/contracts shall be provisioned at NSE as an alternative trading venue.

Segment	BSE Exclusive Securities / Contracts
Cash Market	<ul style="list-style-type: none"> ○ Equity main board

National Stock Exchange of India Limited

[Go to Index](#)

	<ul style="list-style-type: none"> ○ SME Securities ○ Partly Paid Main Board & SME Equity Shares ○ Rights Entitlement of Main Board & SME ○ T0 securities, if any
--	---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

B. Applicable Trading sessions:

The below mentioned trading sessions shall be conducted at NSE based on communication received from BSE, if an outage occurs on a normal business (excluding special trading days viz. Muhurat trading, unplanned trading sessions etc.) day at BSE.

Segment	Sessions
Capital Market	<ul style="list-style-type: none"> ○ Pre-Open Session** ○ Special Pre-Open session for IPO and Relisted security** ○ Normal Market session ○ Block Deal window** ○ Post Closing session ○ Auction Trading Session

** Trading sessions for BSE exclusive securities shall be applicable if the invocation communication from BSE is received before start of the market hours.

C. Security identification & specifications of BSE exclusive securities:

1. In the security master, BSE exclusive securities shall have “\$” suffixed in the symbol.

E.g.

Symbol at BSE	Symbol at NSE (upto 10 characters)
---------------	---------------------------------------

National Stock Exchange of India Limited

[Go to Index](#)

SYMBOLABCDE	SYMBOLABC\$
SYMBOLKLMN	SYMBOLKLM\$
SYMBOLAB	SYMBOLAB\$

2. A new value '2 – BSE listed' shall be introduced in the existing field of security master, as below, to identify BSE exclusive securities.

File Name	Field Number	Field Name	New value provided	New value description
<ul style="list-style-type: none"> security.txt nnf_security.dat 	6	PermittedToTrade	2	BSE listed
NSE_CM_security_ddmmyyyy.csv.gz	17	PrtdToTrad		

3. In security master, these exclusive securities shall be in "Eligible" state. However, the same shall be tradeable only upon invocation of alternative trading venue mechanism.
4. Security name will be upto 25 characters only. Security name longer than 25 characters at BSE, shall be truncated accordingly.
5. Tick size shall be as per details provided by BSE.

D. Security master files dissemination:

File details	File nomenclature	Extranet path	Website display name and link
NSE securities	security.gz	/cmftp/common/ntneat	-
	nnf_security.gz		

National Stock Exchange of India Limited

[Go to Index](#)

s (No change for members)	NSE_CM_security_ddmmyyyy.csv.gz (MII security file)	(Should be used by members who are exclusively registered and enabled on NSE)	Display Name: CM- MII- Security File (.gz) - (NSE Listed securities) Link: https://www.nseindia.com/all-reports
NSE & BSE securities (New files and paths)	security.gz	/cmftp/common/ntneat/int erop /faofp/faocommon /slbftp/slbcommon/NTNEA T	-
	nnf_security.gz		-
	NSE_CM_security_ddmmyyyy.csv.gz (MII security file)	/cmftp/common/ntneat/int erop	Display Name: CM- MII- Security File (.gz) - (NSE Listed and BSE Exclusive securities) Link: https://www.nseindia.com/all-reports

Note: Members are advised to upload the appropriate security master every day before trading **hours**.

E. In case of outage at NSE:

Exchange, endeavors towards the smooth functioning of the entire market without any disruption under all circumstances. However, to address any potential outage, NSE takes measures as mentioned in circular NSE/MSD/48662 dated June 18, 2021, in accordance with SEBI circular SEBI/HO/MRD1/DTCS/CIR/P/2021/33 dated March 22, 2021.

Now in addition to the aforesaid, depending on the type of outage, NSE may request BSE to invoke trading at

National Stock Exchange of India Limited

[Go to Index](#)

their end as an alternative trading venue for NSE exclusive securities / contracts as applicable.

In such a case, market participants shall be informed about the invocation of alternative trading venue at BSE via circular/website or any other medium based on viability at that time.

Post invocation of alternative venue at BSE, if NSE revives its operations, parallel trading at both NSE & BSE shall continue for the rest of that trading day. Accordingly, relevant details about the resumption shall be communicated to the market participants via circular/ website or any other medium, as appropriate.

Password Expiry Alert

The user shall receive alert message for the expiry of their log in password.

Users will start receiving following alert message in the message area of NEAT+, five days prior to the expiry of the password at the time of login.

Message Area: -

<USER_NAME> Signed On.

Attention: User <USER_ID> Your password shall expire on <DATE>.

Kindly change it to avoid any login issue on <DATE>

Reset of password and Unlock user

Reset of password:

A facility is provided to corporate manager to enable and reset password for all the users under his trading firm under dialogs menu (Ctrl+Alt+R) in NEAT+. The Corporate Manager will be able to reset the password of the user, who is disabled on account of entering wrong password. Corporate manager will be able to change the password of only INACTIVE / DISABLED users.

National Stock Exchange of India Limited

[Go to Index](#)

On entering the user id and pressing Check Status button, the status of the user id will be displayed along with the default password. On pressing Ok button, the status of the user will be set as Inactive, and the password will be changed to default password.

Unlock User:

A facility is provided to the Corporate Manager to send unlocking request to the Exchange through trading system for branch manager and dealer. This facility can be invoked through NEATPLUS Dialog menu (CTRL+SHIFT+U).

Corporate Manager has to select user id, reason for unlocking and send the request to the Exchange. Corporate manager will get Unlock request approved or rejected message when the unlock request is approved or rejected by the Exchange. Corporate manager cannot place unlocking requests for user ids which are already logged in to the system or surrendered user ids.

Members can also unlock or reset password of NEAT User ID by sending a request through ENIT on the below path:

Member Portal > ENIT-New-Trade > Trade > Password Reset/Unlock NEAT User ID > Request for Password Reset/Unlock

Requests for password reset or unlocking through fax/e-mail shall not be accepted by the Exchange.

The module in ENIT will enable members to electronically submit and track password reset/ unlock request status for NEAT User Id

Members will be able to seek the following services through ENIT:

- Digitally submit password reset/ unlock facility for NEAT UserId
- Tracking of request status
- Receive sms and/or email alert for the submission, completion / rejection of requests.

The procedure for submitting such requests is provided in the user manual available on member portal on the below path:

Member Portal > ENIT-New-Trade > Trade > Password Reset/Unlock NEAT User ID > Request for Password Reset/Unlock

Request received by the Exchange before and up to market close of trading day:

National Stock Exchange of India Limited

[Go to Index](#)

Such requests shall be considered for processing on the same day, subject to fulfilment of necessary pre-conditions, if any.

Requests received by the Exchange after market close on a trading day:

Such requests will be processed by next working day before market hours subject to fulfilment of necessary pre-conditions, if any.

Disablement of Users not logged in for more than 180 days

User IDs which have not logged in for more than 180 days shall be automatically disabled by the Exchange. The existing RESET PASSWORD facility available to Corporate Manager in NEAT Plus can be used to enable logins for such disabled Dealer and Branch Manager Ids.

However, if the corporate manager is unable to reset password for Dealer and Branch Manager Ids through NEAT Plus, then member is requested to send the request on the company's letter head through e-mail on msm@nse.co.in

Members may also reset password by sending the request through ENIT.

6.3 Contingency Pool trading facility for members

The Exchange provides trading facility from its premises to members in the event of a contingency where trading member is not able to use own connectivity because of a technical or a power failure. In such cases, trading member can send the request in writing to the Exchange asking for permission to trade from the Exchange's premises. Upon receiving such request from the trading member, Exchange verifies the details and allows the representative of the trading member to come and use the trading terminal situated in the contingency pool in its premises. The facility is available on a first come first serve basis. The trading facility in the contingency pool is granted for a particular day only.

The format for Application for Contingency trading is provided as Annexure E.

6.4 NSEIL Dashboard

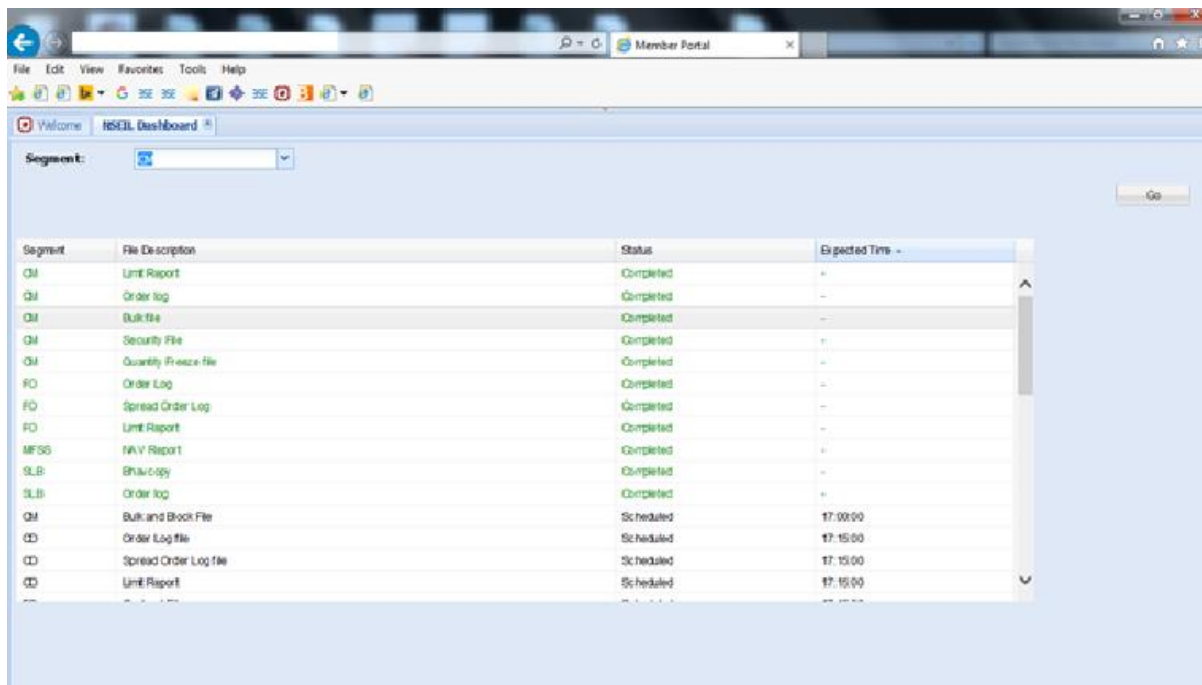

National Stock Exchange of India Limited

[Go to Index](#)

In an endeavour to improve operational convenience, Exchange has introduced “NSEIL Dashboard” on Member Portal under “Services”. Members can use this facility to track the status of various reports pertaining to Trade; downloaded on Extranet by Exchange under different segments.

On clicking on “NSEIL dashboard” link, the status and the estimated time of the reports would be displayed.

The screenshot shows the NSEIL Dashboard interface. It features a 'Segment' dropdown menu and a 'Go' button. Below, a table displays the status and expected time for various reports. The table has four columns: Segment, File Description, Status, and Expected Time.

Segment	File Description	Status	Expected Time
OM	Limit Report	Completed	--
OM	Order Log	Completed	--
OM	Bulk File	Completed	--
OM	Security File	Completed	--
OM	Quantity Freeze File	Completed	--
FO	Order Log	Completed	--
FO	Spread Order Log	Completed	--
FO	Limit Report	Completed	--
MFSS	NAV Report	Completed	--
SLB	Share Copy	Completed	--
SLB	Order Log	Completed	--
OM	Bulk and Book File	Scheduled	17:00:00
OD	Order Log File	Scheduled	17:15:00
OD	Spread Order Log File	Scheduled	17:15:00
OD	Limit Report	Scheduled	17:15:00

In case of any rescheduling, the revised “Expected Time” would be displayed.

6.5 ENIT- Facility to set trading limits in case of an exigency

Members are required to set limits for branches as well as for each user ids (Corporate Manager, Branch Manager and Dealers) before submitting orders to Exchange. Such order limits are required to be set by the Corporate Manger or Branch Manager through Exchange provided front end NEAT/NEATPlus. In event of a contingency faced by member where he is not able to use own connectivity for login because of technical issues or power failure or any other legitimate reason, Exchange provides contingency pool facility to members wherein members login in system and conduct the required activity. The details for the same are provided in the consolidated circular 44481 ,44482, and 44483 dated May 27, 2020 for CM, FO and CD segment respectively. Exchange has also provided multiple options for members to build robust connectivity and has provided redundancy options to ensure continuity of their business operations as per their requirements like multiple POP locations, multiple last mile telecom service providers, dual lease lines and router scenarios, quadruple locking and unlocking of user ids etc. Advisory in these regards have been issued by the Exchange from time to time as provided in circular reference number 46025 dated October 14,2020

In our continuous effort to facilitate trading members and based on their feedback, the Exchange is pleased to introduce facility by which members can now submit electronic request for limit setting through ENIT. Members are advised to use this facility only as a last resort during legitimate exigencies at member end.

Salient features of the facility are as follows:

- Initially this facility will be available in the Capital Market Segment (CM), Futures & Options Segment (FAO), Currency Derivatives Segment (CD) segments.
- This facility shall be free of charge only once per segment per calendar month.
- Any additional request shall be charged Rs. 10,000/- plus applicable taxes per segment per request.
- All requests received within the specified time range will be processed at the end of day (EOD). Details of the same are provided in the user manual available on ENIT.
- Member can upload the input file multiple times in a day till the specified permitted time (segment wise) as provided in user manual. Only the latest uploaded file will be considered for processing. The earlier request sent during the day will be auto cancelled.
- For member convenience, the input file format is aligned with the limit file which is downloaded by the Exchange after market hours to the member every trading day on extranet on the given path as mentioned in user manual.
- Input file uploaded in ENIT shall be subject to business validations and appropriate rejection reasons shall be provided for efficient processing. Members are requested to refer the Illustration provided in the user manual before submitting the request on ENIT.
- Members can login to member portal and access the module from the below path:

Member Portal > Enit-New-Trade > Trade > Limit Setting > New Limit Setting Request

National Stock Exchange of India Limited
